

Why KPIs are needed

- Show what data to collect
- Standardizes data collection
- Demonstrates performance and outcomes
- Shows gaps in policy
- Shows areas for improvement
- Pathway to Smart, Sustainable Cities
- Achievement of SDGs

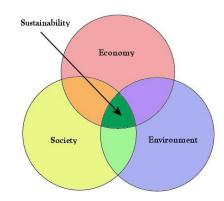

What KPIs are being developed

3 Major Areas of Focus

- Economy
- Environment
- Society and Culture
- Unique focus on sustainability & smartness
- Achievement of SDGs
- Sustainable Development Goal 11: "Make cities and human settlements inclusive, safe, resilient and sustainable".

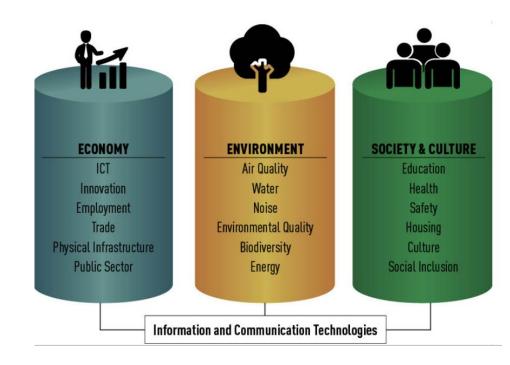

What KPIs are being developed

Core Indicators:

To be reported by all cities Basic sustainability / smartness & SDGs

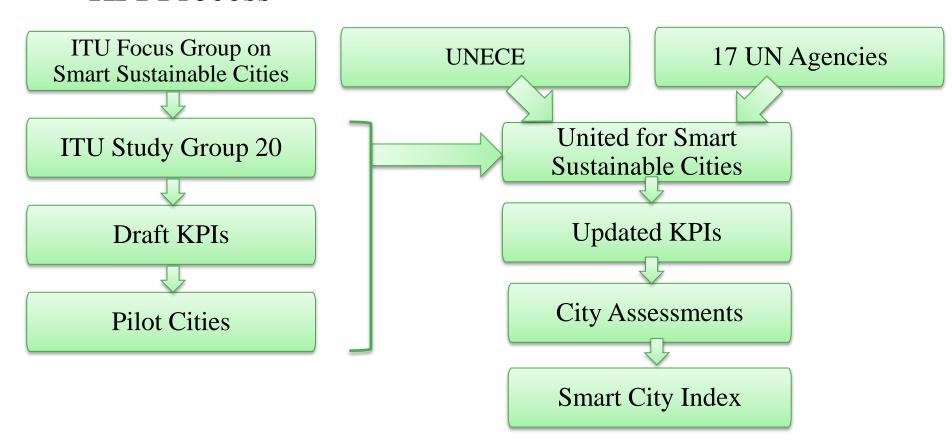

Advanced Indicators:

To be reported to show city performance to advanced levels of sustainability or smartness

KPI Process

Typical KPIs

Typical Core Indicators

Economy: Infrastructure

Proportion of city population with potable water supply

Environment: Air Quality

GHG Emissions

Typical Advanced Indicators

Economy: Roads

Percentage of major streets monitored by ICT

Society & Culture: Public Spaces, Nature & Biodiversity

Area of total public sports facilities
