

Germany's Demographic Strategy

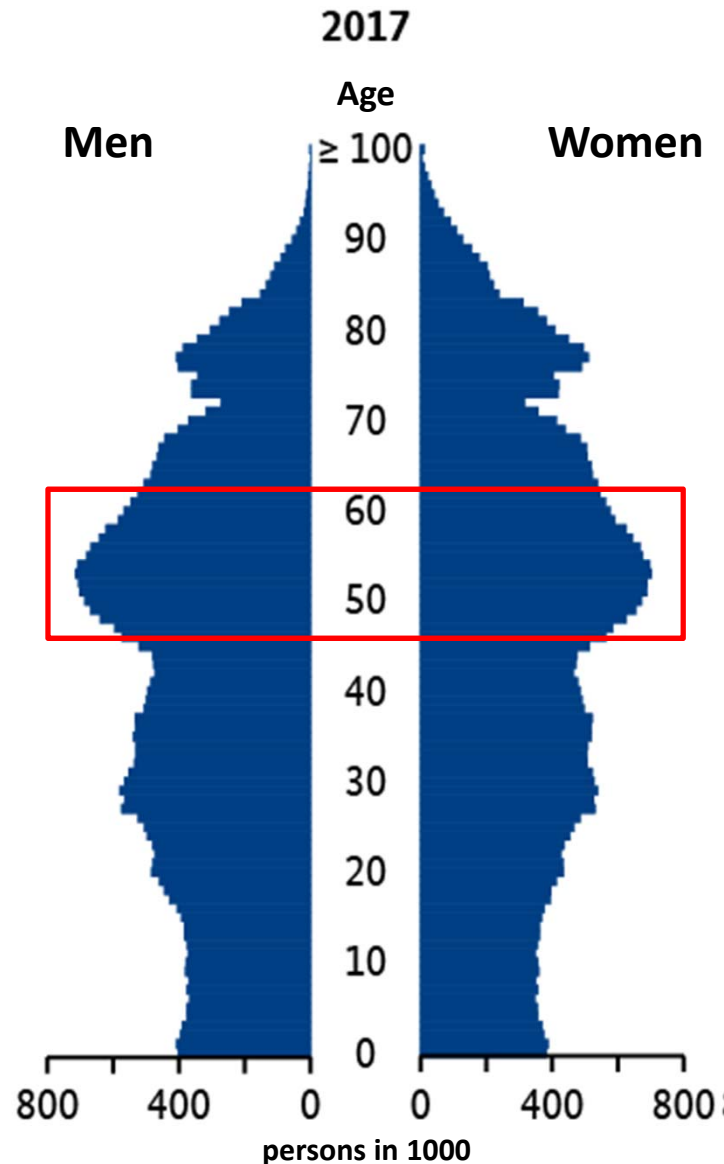

Elke Loichinger

Federal Institute for Population Research

Geneva, 1-2 October, 2018

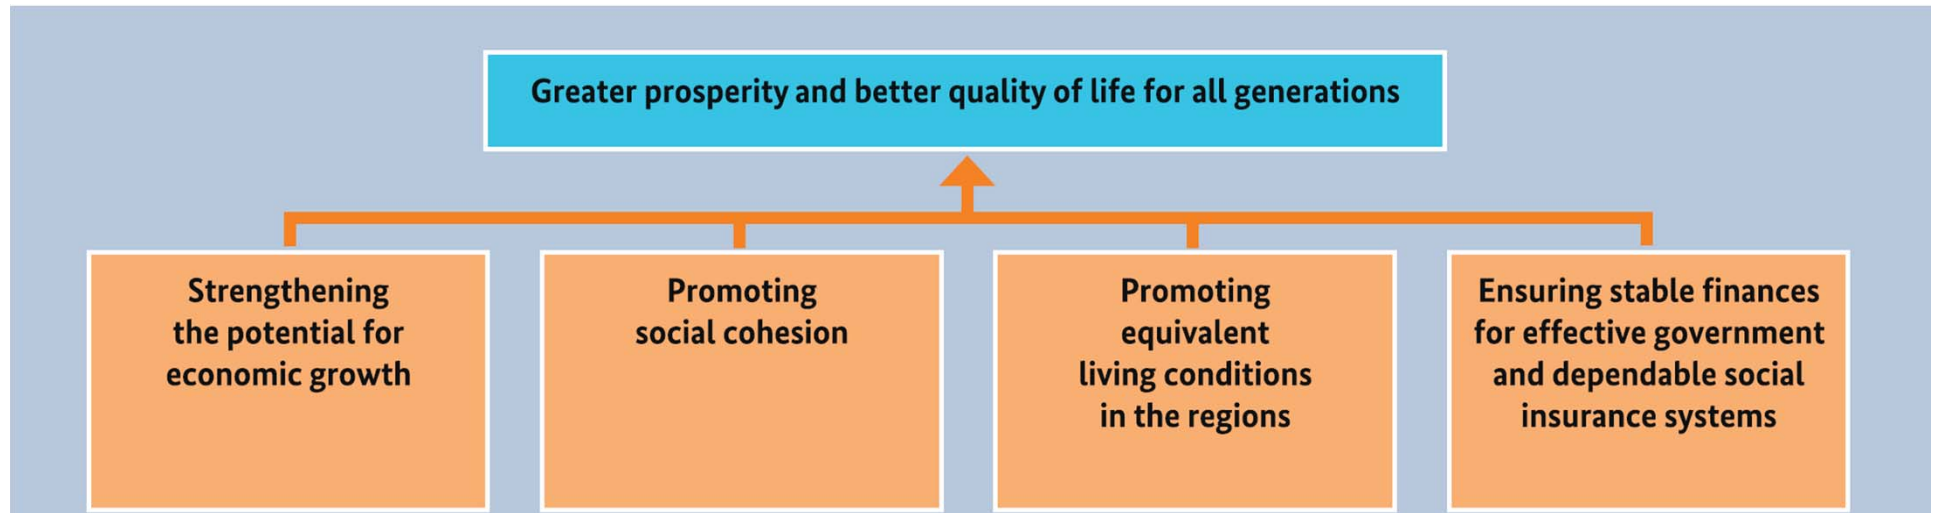

Regional Conference on ICPD+25: Enabling Choices: Population Dynamics
and Sustainable Development

Demographic situation

- Population: 82.8 million (31.12.2017)
- Low TFR, increasing LE
- Share 65+: 21.4%
- Foreign-born population: 10.6 million (12.8%)
- Ongoing compositional changes (diversification of life forms, increase in one-person households)
- Large regional differences

Demographic strategy: aims

- Interdisciplinary approach across ministries
- Involvement of many stakeholders (every level of government, private sector, social partners, research community, civic society)
- Regional differences receive special attention (special commission)

Data and analysis

- Evidence-based decision and policy making requires solid data and analysis
- Data
 - quantitative and qualitative data
 - national AND sub-national levels
 - disaggregation beyond basic characteristics
 - importance of monitoring and evaluation
- <http://www.demografie-portal.de>
 - 1) data and facts
 - 2) discussion forum
 - 3) national and international best-practice examples

Thank you!
