

**CONFERENCE OF EUROPEAN STATISTICIANS**

For information

Third meeting of the 2006/2007 Bureau  
Geneva, 12-13 February 2007

Item 12 of the Provisional  
Agenda

**DATABASE OF INTERNATIONAL STATISTICAL ACTIVITIES  
IN THE UNECE REGION (DISA/IP)  
Year 2007**

**Note prepared by the UNECE secretariat**

**INTRODUCTION**

1. The Database of International Statistical Activities (previously called Integrated Presentation) is a compendium of **statistical work** carried out by international organizations. The UNECE Statistical Division has been compiling the information at the request of the Conference since 1991. Starting from 2002, it is available on the web in a database format.

**CURRENT STATUS**

2. **The 2007 issue of the Database will be made available online on 12 February 2007.** It can be consulted at: <http://unece.unog.ch/disa/>. Printed copies of the Database will be made available for all members of the Bureau in the meeting room.
3. The statistical activities are divided into five main subject areas: demographic and social statistics; economic statistics; environment and multi-domain statistics; methodology of data collection, processing, dissemination and analysis; and strategic and managerial issues of official statistics. These are further refined and categorised under 55 sub-headings according to a classification adopted by the Bureau in October 2005.
4. Thirty-three international organizations (including city groups) were contacted to obtain contributions for 2007. Thus far, the UNECE has received the inputs from thirty of them. The information received from the contributing organizations has been collated, classified and checked for consistency.
5. The remaining three organizations, which have not yet replied are: European Environment Agency, and UNHCR. The UNECE secretariat will follow up on the outstanding contributions and include the information in the database as soon as the contributions are received.

## ANNEX

List of organizations and groups whose information for 2007 has been included in the UNECE  
Database of International Statistical Activities  
(status of 6 February 2007)
