Description

[\[edit\]](#)

Marital Status refers to the legal conjugal status of the groom, bride or spouse at the time of their marriage. A single person is one who has never been married, or a person whose marriage has been annulled and who has not remarried. A person whose husband, wife or spouse has died and who has not remarried is widowed. A divorced person is one who has obtained a legal divorce and has not remarried. A separated person is legally married but is not living with his or her husband, wife or spouse because the couple no longer wants to live together. A married person is one who is legally married and not separated. Persons in common-law relationships are categorized by their legal marital status. Only those persons whose legal marital status is single, widowed or divorced can marry.
