

UNITED NATIONS - ECONOMIC COMMISSION FOR EUROPE
CONFERENCE OF EUROPEAN STATISTICIANS

Work Session on Statistical Data Editing

Topic II - **Managing and supporting changes related to editing and imputation**

Budapest, 14-16/09/2015

Premises

1. process and methodological improvements are clearly analyzed, but
2. their introduction in the statistical production process requires additional efforts
3. to ensure changes are thoroughly and smoothly implemented and lasting benefits of change are achieved

How to reach this aim?

- efforts should focus on involving and obtaining support and cooperation from top-level management and the editing staff as early, openly and fully as is possible
- understanding where an NSI wants to be and determining the initiatives to get there
- planning development work in appropriate, achievable and measurable stages.

Expected output of the session

To have a clear view on key issues

- How to engage top-level management and each of the levels below in supporting changes in culture E&I;
- Training and education to support changes in culture and E&I methods and processes;
- How to monitor and interpreting the efficiency of an E&I process with respect to meeting users' needs and minimizing use of resources.
- a list of further key issues to deal with
