

National Statistical Service of the Republic of Armenia
Armenia experience

**Seminar for South East Europe, Eastern Europe, Caucasus,
Central Asia and Mediterranean Countries**
‘Global Assessments and Peer Reviews – follow up and next steps’
25-27 June 2013, Alushta, Ukraine

Official statistics for users

- Guided by the UN Fundamental principles of official statistics and EU Code of Practice, NSS of RA has developed the number of documents and published them on the first page of its official web-site www.armstat.am:
- The value, fundamental and organizational principles of official statistics, accounting and information systems features for statistical and administrative purposes.
- What is the administrative register?
- Objective causes of the deficit of trust in relation to official statistics.

Armenian statistics support through Twinning (2011-2013) based on the global assessment 2009, jointly undertaken by Eurostat, UNECE, EFTA

- **Main objective was to harmonize Armenian statistics according to EC standards.**
- **6 components:**
 - quality management, business statistics improvement, improvement in the GDP completeness, agricultural census, Harmonised Index of Consumer Prices, information and communication society statistics.
- **“Quality management” component**
- One of the result of the “Forwarding Armenian Statistics through Twinning” project was focused on quality improvement and increasing the role of statistics in Armenia.
- The objective of the “Quality management” component: documentation, collection, systematisation, and publishing of the metadata and quality indicators for all core datasets on the NSS RA web-site www.armstat.am (page “Documentation” has been launched).

Quality declarations

- List of NSS RA statistical products has been developed
- Quality declarations for 134 products have been developed and organized by following areas:
 - Economics and finance
 - Population and social processes
 - Transport and tourism
 - Foreign trade
 - Agriculture, fisheries and fishing
 - Food supply
 - Environment and energy
- PC Axis/PX Web dissemination tool was implemented and ARMSTATBANK.AM was established, which provides users with fast easy access to statistical information, allows to download data into MS Excel, xml or other formats, and to produce graphs and tables according to their needs. NSS RA is the first statistical service in the world which started to use the new 2012 version.
