7 Cultural Excursion

*Tour course may change depending on the situation.

7-1/ KOREA FURNITURE MUSEUM

With 10 exquisite hanok structures fitting together on approximately 6,600 square meters of beautifully groomed landscape, the Korea Furniture Museum is perhaps the largest best-kept secret in Seoul. And for the time being at least, it wants to stay that way.

Having unofficially opened in 2008 after 14 years of construction, the private museum is the beloved brainchild of its owner and director, Chyung Mi-sook, a former professor at Yonsei University and a collector who personally amassed the museum's 2,000 pieces of Joseon Dynasty furniture over the past five decades. As Korean traditional living culture was sedentary, most of furniture was built to be small and low; for example, the cabinets fit perfectly beneath the papered wooden windows of the Museum's women's quarters.

7-2/ GILSANG-SA

Gilsangsa Temple belongs to the Jogye Order of Korea Buddhism. Located on the southern side of Mt.Samgaksan, the buildings originally belonged to a high-class restaurant. Named Daewongak but were donated to Monk Beopjeong Sunim by the owner, Kim Yeong-han. The temple was first registered on June 13, 1995 under the name of Daebeopsa as a branch has been remodeled, most of them are preserver in their original state. The major temple buildings and monuments include Geungnakjeon (Hall of Amitabha), Jijangjeon (Hall of Ksitigarbha), Seoulbeopjeon (preaching Hall), Gilasangseowon, Yumaseonbang, the House of Silence, Beonmjonggak (Bell Pavillion), Iljumun (One Pillar Gate), the temple office, a statue of Avalokitesvara, and a monument to the deceased Gilsangwha. Enshrined in Geungnakjeon, the main hall of the temple, is a statue of Amitabha Buddha flanked by the bodhisattvas Avalokitesvara and Ksitigarbha.

10. GENERAL INFORMATION

10-1. Seoul (the Capital of Korea)

The word "Seoul" means capital in traditional Korean. The city contains both history and tradition, as well as the latest IT technology, making it quite rare anywhere on the globe.

► Gyeongbokgung (Palace)

Built in 1395, and also known as the "Northern Palace", it is the main palace of the Joseon Dynasty. One of five palaces (Changdeokgung, Changyeonggung, Gyeongheegung and Deoksugung Palaces are also worth a visit), Gyeongbokgung is reputed to be the most beautiful and impressive of this era. Destroyed by Japanese invaders in the 16th century, it was rebuilt and restored in the 19th century. It comprises over 7,700 rooms. Gyeonghoe-ru Pavilion and Hyangwonjeong Pond are still relatively intact. The National Palace Museum of Korea is located nearby. Closed on Tuesdays.

► National Museum of Korea

The perfect place to get an overview of Korean history, art and culture. NMK (not to be confused with the National Palace Museum) features an incredible range of exhibits, from Goryeo Dynasty celadons and paintings from the Joseon Dynasty, to contemporary artwork and photography. Check the program guide of current exhibits, which often includes exhibits on loan from other famous museums. There is also a popular Children's Museum. NMK was recently voted one of the top ten most visited museums in the world. Closed on Mondays.

► N Seoul Tower

Opened in 1980 and situated in the heart of the capital atop Namsan Mountain, N Seoul Tower has become one of the city's most popular (and prominent) landmarks. Rising almost 500 m above the city, it affords magnificent panoramic views. The top features a revolving restaurant.

► Namsangol Hanok Village

A traditional Korean village sandwiched between modern skyscrapers, it comprises several old traditional Korean houses and a pavilion with a pond that have been painstakingly and lovingly restored. Cultural performances are held here regularly. Closed on Tuesdays.

► Samcheongdong-gil

This is one walking tour not to be missed: a circuit that starts at Gyeongbokgung Palace and winds its way through an older, laid-back, more colorful and bohemian part of the city. The street is lined with numerous art galleries, quaint shops and restaurants, as well as the occasional temple (and other surprises!) for a real 'neighborhood' exploration in the heart of the Big City.

► Lotte World

Part theme park, part entertainment mecca, part folk museum, part international cuisine smorgasbord, Lotte World truly has it all. From thrilling rides at Adventureland and Magic Island, to an ice rink, laser shows, parades, and much more. Feel what it's like to be inside a tornado. Ride the Gyro Drop and Gyro Swing (if you dare!). It's easily an all-day - and into the night - blast.

10-2. Han Style

Han Style refers to the source of Korean culture representing and symbolizing Korea, and the branding of Korean traditional cultures including Hangeul, Hansik, Hanbok, Hanok, Hanjiand Hanguk-eumak which can be commercialized, globalized, and used in everyday life.

Hangeul: The Korean alphabet, a very scientific writing system that has been designated by UNESCO as an important part of the Memory of the World Heritage. As a result of the Korean Wave and Korea's economic prosperity, the desire to learn Hangeul and the Korean language is exploding.

Hansik: Korean food continues to gain popularity throughout the world for its incredible health benefits.

Hanbok: The focus of attention when Daejanggeum (Jewel in the Palace), a TV drama on royal court cuisine, became popular in Asia. Modifications of the exquisite colors and designs of the Hanbok are also used as motifs in all Korean-style designs.

Hanok: Many international visitors are showing interest in the traditional Korean home, Hanokas they want to experience Ondol, the Korean floor heating system very effective in the cold winter. Ondol is an important aspect of Korea's unique architectural style, and brought floor heating into vogue globally.

Hanji: A traditional form of paper that can last for over one thousand years and is known for its outstanding quality and elegant designs. The paper is drawing attention not only for record-keeping purposes but also for interior decoration and for its uses in paper wrapping.

Hangukeumak: Traditional Korean music that has slow-rhythm and sentimental lyrics that epitomize the sad history of Korea. Such unique Korean sentiments had significant influence on Korean popular music and drama and are an important driver of the Korean Wave.

11. TIPS & USEFUL INFORMATION
