Scaling up forest landscape restoration through regional initiative AFR100

FORESTS

**WORKSHOP ON FOREST MONITORING AND RESTORATION
IN THE CAUCASUS AND CENTRAL ASIA**

9 DECEMBER 2020, ONLINE

African Forest Landscape Restoration Initiative

FORESTS

AFR100 (the African Forest Landscape Restoration Initiative) is a country-led effort to bring 100 million hectares of land in Africa into restoration by 2030.

AFR100 contributes to the Bonn Challenge, the African Resilient Landscapes Initiative (ARLI), the African Union Agenda 2063, the Sustainable Development Goals and other targets. **Follow #AFR100**

COMMITMENT TRACKER

AFR100 Partnership

Focal points of relevant ministries from AFR100 partner countries as well as technical and financial partners that support FLR in Africa.

FORESTS

Hosted by AU AFR100 Secretariat with support from organizing partners (BMZ, WRI, GIZ, IUCN, the World Bank)

UNECE

Agreements so far

Support for scaling up FLR in Africa

FORESTS

- Engage communities
 - Keep communities at the forefront of FLR assessment, planning, and implementation processes
- Showcase successes and replicate what's working
 - Knowledge exchange through peer-learning and awareness
 - Journalists from across the continent cover the events
- Capacity building
 - Encourage more countries to allocate domestic budget for FLR implementation and pursue private sector funding
- Monitor FLR progress and impacts
 - Implement systems to track FLR implementation and progress. Quantify impact on the biophysical landscape and on people's wellbeing.

Scaling up FLR through regional initiative AFR100

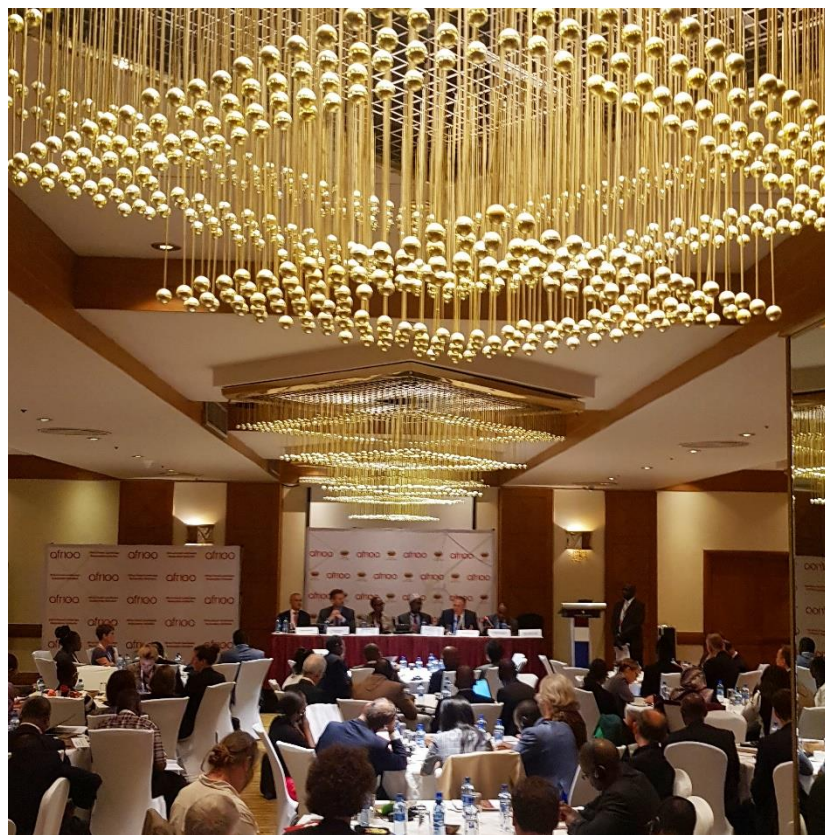

FORESTS

- Strengthening Partnerships
 - Building a restoration movement within and across borders
- Platform for exchange of best practices
 - Communities realizing benefits from restoration: Transforming landscapes and livelihoods
- Identify funding sources and drive resource mobilization for FLR in Africa
- Capacity building
 - AFR100 organized workshops

Thank you!
