Document 7
Translated from the Spanish original

Dear Mr.:

As regards the topic studied in the meeting supported with this Service of Food security and Environmental Health during this February with regard to the possible contamination of the air of Almendralejo, on the part of pollutant issues of the company VINIBASA, fulfill to me to inform you that information has been requested the pharmacist of the corresponding health area.

Likewise, the collaboration has been requested to the Environmental Service of Rationalization of Activities so that, as its possibilities, they realize measurements of the issues of the above mentioned industry with regard to furans, dioxins and PCB (policlorobifenilos).

What I communicate for your knowledge.

Receive a cordial greeting,

Merida, on February 22, 2007
