SAY:

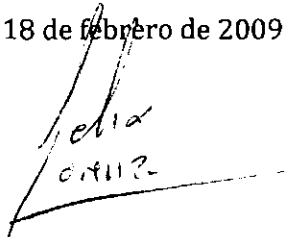

When Wednesday 16 February 2005 in the B0E No. 40 appeared the announcement of the "Ratification of the Convention on access to information, the public participation in the decision-making and access to justice in the field of environment, done in Aarhus, Denmark, on 25 June 1998", the members of many small associations, such as ours, received it with great joy and full of hope. The preamble of the Convention we liked it so much that it took as our motto in the first page of our web site.

If you do not be remedied the real access of associations to justice free, our partnership would seriously consider the end their activities for lack of means to carry them effect and the danger, even physical, that for its members would defend the right to have the present generations and the coming to an environment that allows them to a real enjoyment of life.

By the above,

BEG THE OMBUDSMAN, taking by submitted this written with documents that accompany it, you admit the complaint that through the same made against the Spanish State by the repeated failure of the Aarhus Convention and the Law 27/2006, July 18, on the governing the rights of access to information, of public participation and access to justice in the field of environment (incorporates Directives 2003/4/EC and 2003/35/EC).
