Subject: Additional document concerning case no. PRE/ACCC/C/2016/151

To whom it may concern,

I am writing to you in reference to case no. PRE/ACCC/C/2016/151 and ClientEarth Prawnicy dla Ziemi's communication to the Aarhus Convention Compliance Committee.

I would like to supplement said communication by submitting a translation into English of a final and binding judgment issued by the Supreme Administrative Court in Poland (dated 23 January 2018, case no. II OSK 3218/17) concerning the inadmissibility of challenges brought by an individual and ClientEarth (an environmental NGO) against the air quality protection program for the region of Silesia, Poland. This is a recent judgment, issued as a result of an appeal lodged against the first-instance judgment which was attached to ClientEarth's communication to the Aarhus Convention Compliance Committee (judgment of the Regional Administrative Court in Gliwice of 27 October 2017, II SA/GI 639/17).

I have attached to this e-mail both the translation into English, as well as the original Polish-language version of the aforementioned judgment.

I would be grateful if you would confirm the receipt of this e-mail.

Best regards,

Bolesław Matuszewski
