**SUBJECT: EXTENSION OF THE MINING CONCESSIONS "RIAL I NO. 4120.2",
"REGUEIRO DA OSA NO. 4291" AND "JAGOAZA NO. 4121" (OURENSE)**

In relation to the consultation made by the Provincial Department of Energy and Mines of Ourense regarding the need to submit the extension of the mining concessions at hand to environmental assessment, you are hereby informed that, since they were granted prior to the environmental legislation in effect, and that the mining projects on which such requested extensions would be based do not affect different areas than those so far altered, it is not necessary to process an Environmental Statement unless mining works affect new areas.
