Subject: ACCC/C/2013/89/Slovakia / Decision VI/8i - Information about the amendment of the Directive on Sensitive Information

Dear Ms. Marshall,

I would like to inform you that the Nuclear Regulatory Authority amended the Directive on Sensitive Information, the wording of which constitutes one of the core issues in the context of the case ACCC/C/2013/89 and the decision VI/8i. The intention of the amendment is to comply with the recommendations enshrined in the 2nd Progress Review (mainly para. 35-40 of the 2nd Progress Review). Please find attached the English and Slovak version of the directive. The amended text is highlighted.

In particular, it incorporates directly in the text of the directive the principle that any limitations of the access to information need to be interpreted in a restrictive manner, considering the public interest served by disclosure and whether the information requested relates to emissions into the environment.

Please do not hesitate to contact me in case of any questions.

Kind regards,

Marek Prityi
