Subject: Belarus

Dear Sir / Madam,

Republic of Belarus expresses gratitude to the Secretariat of the Aarhus Convention and the Compliance Committee of the Aarhus Convention for the work carried out in the framework of the advice ACCC/A/2014/1.

We are satisfied with the replies contained in the recommendations.

However there is one question of clarification concerning the term “residues”: should the term “residues” be understood in the context of para 6a) of article 6 of the Aarhus Convention as referring to the following categories: the raw materials not having been used in the production process; secondary raw materials, generated in the production process; the unsold end products?

Kind regards,  
Yeudasiova Tatsiana
