

Opinion February 16

Who is building to park?

In the showroom: Deputy Prime Minister, Niko Peleshi, Deputy Mayor, Arbër Mazniku and the members of the municipal council from the opposition, Eno Bozdo and the urban planner, Besnik Aliaj.

6:10 minutes:

Mazniku: A playground park for children is being built in the national park as part of the Lake Park. A set of toys is being built there in the most environmental possible way, which means wooden staircase, sliding...

Fevziu: That means the municipality is building it or is being built by a private business for profit?

Mazniku: It's the municipality, the municipality. With the budget of the Regional Development Fund ... yes, it's public budget for the public benefit, so it is a public park where children will be able to play.

42.10 minutes

Fevziu: Is there a permit for the construction of the park?

Arbër Mazniku: Yes, certainly, we have the permit. The permit is issued by the Municipality and the National Territory Regulation Council.

Fevziu: Has the National Territory Council issued it?

Mazniku: It is in process and it will issue it.

Fevziu: Yes, but given that it's in process, why has the construction begun?

Mazniku: I have here today before me the permit, which is the site permit ... it's the authorization act of acquiring the site, which has been issued for the company, to which the project has been awarded, to start the work. It has fenced the site to prepare the works according to the project that has been approved.
