17 November 2017

Joint workshop with UNDP Kazakhstan on Improving management of multi-apartment buildings to increase investments in housing and utilities sector and Presentation of the Country Profile of Housing Sector of the Republic of Kazakhstan

The workshop discussed the government policy and best practices in the housing sector with a focus on the improvement of management of common areas in multiapartment buildings. The workshop addressed issues of raising awareness of homeowners, building their trust to condominium management authorities and attracting investments to the renovation of the multiapartment buildings will be presented and discussed.

The workshop included presentations by experts of key outcomes and recommendations of the Country Profile on Housing of the Republic of Kazakhstan prepared by the United Nations Economic Commission for Europe in cooperation with UN-HABITAT and the United Nations Development Program in Kazakhstan at request of the former Ministry of Economy of Kazakhstan.

Please see the workshop agenda in a separate file.
