FERTILITY AND FAMILY SURVEYS

Publications

Introduction

As of February 1992 till October 2000 an FFS Newsletter was distributed to inform all interested individuals about the progress made in the FFS project. National representatives published major findings of the FFS in their country in a uniform way in the FFS Standard Country Reports. National representatives have been requested to provide the PAU with an overview of important national FFS publications in and from their country. Authors of FFS comparative research projects have been requested to provide the PAU the outputs of their FFS research project. In the context of the conferences, and more in particular of the FFS Flagship Conference several publications making use of FFS data have been prepared.

Papers of the FFS Flagship Conference have been published:

Dynamics of fertility and partnership in Europe - Insights and lessons from comparative research

Volume I: Sales No: E.02.II.E.10 - ISBN 92-1-116808-2 and

Volume II: Sales No: E.02.II.E.10 - ISBN 92-1-116809-0.

FFS Newsletter

An FFS Newsletter has been published periodically to inform Informal Working Group members and other interested individuals of FFS project developments. Between January 1992 and October 2000, 18 issues of the FFS Newsletter have been published. As the FFS project formally ended no further Newsletters will be issued.

Standard Country Report (SCR)

In 1991, Mr. Beets (NIDI, the Netherlands) was asked to propose an outline for the FFS standard country report. Mr. Østby (Statistics Norway) was asked to prepare a country report for Norway on the basis of this outline, after which the outline was revised. The final outline was the result of discussions in the Informal Working Group.

In addition to reporting on FFS results in native language reports, each participating country prepared an FFS Standard Country Report for publication in English by the United Nations Economic Commission for Europe.

Written guidelines on how to prepare such reports were published in Standard Recode Files and Standard Country Reports, United Nations, Geneva, 1993 , pp. 55-112.

The general outline of the Standard Country Report contains:

1. Introduction
2. Economic, social and cultural trends
3. Population Trends
4. FFS Findings
5. Biographical Integrations
6. Technical Annex

Appendix with 36 Standard Tables

After a first draft of a standard country report was prepared by the national authors on the basis of these guidelines, the report was peer-reviewed by two reviewers. Suggestions for changes were subsequently incorporated by the national authors in a second draft of the report. In most cases, the report was afterwards edited at the PAU from a substantive as well as linguistic point of view. Finally, the report was adjusted according to United Nations rules for style and grammar.

The PAU gratefully acknowledge the work done by the reviewers of the FFS Standard Country Reports: Ms. Baxendine, Mr. Beets, Mr. Bumpass, Mr. Callens, Mr. Carmichael, Ms. Castro Martin, Ms. Corijn, Ms. Darroch, Ms. Delgado, Mr. Dharmalingam, Mr. Doblhammer, Mr. Fux, Mr. Festy, Ms. Goldscheider, Ms. Guibert-Lantoine, Mr. Hoem, Mr. Hullen, Mr. Johnstone, Mr. Kamaras, Ms. Kartovaara, Mr. Katus, Mr. Klinger, Mr. Klijzing, Ms. Knudsen, Ms. Kotowska, Ms. Kowalska, Mr. Landgren, Ms. Lodewijckx, Mr. Nikander, Ms. Noack, Mr. Norris, Ms. Nowak, Ms. Obersnel-Kveder, Mr. Østby, Ms. Pfeiffer, Mr. Philipov, Ms. Pinnelli, Ms. Pohl, Mr. Prinz, Mr. de Sandre, Ms. Stankuniene, Mr. Toulemon, Mr. Turcotte, Mr. Van de Kaa, Mr. Zvidrins.
