Note: Due to the availability of new data, some of the figures in this table differ from those in table 3.5.10 of the *Economic Survey of Europe* 2002, No. 1. Estimates for 2001 are generally based on three quarters of balance of payments data for 2001 and fourth quarter changes in 2000. July-December 2000 data were used to make estimates for 2001 for Armenia, for which only January-June 2001 data are available. IMF projections were used for Bosnia and Herzegovina and Yugoslavia. IMF estimates and projections are used for Tajikistan in 2000 and 2001. No balance of payments data have been available for Turkmenistan since 1998.
