

LOGICAL FRAMEWORK FOR THE PROJECT

	Intervention logic	Objectively verifiable indicators of achievement	Sources and means of verification	Assumptions
Overall objectives	O1 - Reduced transboundary air pollution and negative impacts on human health and environment through improved accession to and implementation of the Convention on Long-Range Transboundary Air Pollution (CLRTAP) and its protocols.	Emission of pollutants into air in EECCA countries (disaggregated by source category, by pollutant) Health indicators in the countries of the region: Life expectancy, morbidity (overall and by type of disease - respiratory, cardiovascular, cancer, etc.), mortality rate	Data reported to EMEP, UNECE Statistical database, national statistics agencies data WHO and UNECE Statistical databases, national statistics agencies data	
Specific objective	SO1. Raise the political profile of the Convention in the EECCA region SO2. Encourage ratification of the protocols, in particular the EMEP Protocol, the Protocol on Heavy Metals, the Protocol on POPs, and the Gothenburg Protocol among the countries of the region SO3. Increase the cooperation and exchange of information through expanding emission inventories, the modelling and monitoring activities SO4. Support the EECCA countries involvement in the activities of the Convention	SO1 Indicator 1: Number of meetings with national authorities of the EECCA countries organized SO1 Indicator 2: Number of outreach publications, documents and webpages prepared or translated to Russian SO2 Indicator 1: Number of actions to support the ratification of the Convention and its protocols SO3 Indicator 1: Number of additional countries providing their reporting, participating in modelling and monitoring activities under the Convention SO3 Indicator 2: Number of experts trained or consulted on development of emission inventories, reporting in accordance with the CLRTAP	1.1 - Meeting/project reports 1.2 - Publications, reports, documents, website of the Convention 2.1 - Project reports 3.1. - Reports by EMEP centres 3.2. - Project reports 4.1. - Reports/Lists of participants of the respective meetings, workshops, etc. Methods: above-mentioned information will be either publicly available on the respective website, or included in regular reports to the Commission.	Lack of political will of EECCA countries to implement air pollution abatement strategies, to join the Convention and its protocols and to participate in the activities of the Convention

		requirements SO4 Indicator 1: Number of participants from the EECCA countries attending relevant meetings per year		
Expected results	<p>R1 - Increased political profile of the Convention and raised awareness among decision-makers of the EECCA countries on environmental and health effects of air pollution;</p> <p>R2 - Increased ratification of the Convention and its EMEP Protocol, the Protocol on POPs, the Protocol on Heavy Metals and the Gothenburg Protocol in the EECCA region</p> <p>R3 - Improved access of the EECCA countries to information and tools on air pollution abatement and their strengthened involvement in emissions reporting, monitoring and modelling activities under the Convention;</p> <p>R4 - Increased participation of national experts in the workshops and meetings of Task Forces targeted to building their capacities in the relevant issue</p>	<p>1. 1: Number of meetings with national authorities of the EECCA countries organized</p> <p>1. 2: Number of outreach publications, documents and webpages prepared or translated to Russian</p> <p>2. 1: Number of actions to support the ratification of the Convention and its protocols</p> <p>3. 1: Number of additional countries providing their reporting, participating in modelling and monitoring activities under the Convention</p> <p>3. 2: Number of experts trained or consulted on development of emission inventories, reporting in accordance with the CLRTAP</p> <p>4. 1: Number of participants from the EECCA countries attending relevant meetings per year</p>	<p>1.1 Meeting/project reports</p> <p>1.2 - Publications, reports, documents, website of the Convention</p> <p>2.1 - Project reports</p> <p>3.1. - Reports by EMEP centres</p> <p>3.2. - Project reports</p> <p>4.1. - Reports/Lists of participants of the respective meetings, workshops, etc.</p>	<p>Responsiveness and political will of the EECCA countries to implement air pollution abatement strategies, to participate in the activities of the Convention and to join the Convention and its protocols</p>
Activities	<p>A 1 - Support in the preparation of National Action Plans for Uzbekistan, Tajikistan and Kyrgyzstan and provision of cost and benefits analysis for ratification and implementation (R</p>	<p>Means:</p> <p>Workshops and trainings, advisory services and consultancies, publications and website, travel</p>	<p>Regular reports to the Commission, reports of the CLRTAP Executive Body and Executive Body Bureau</p> <p>Costs</p>	<p>Responsiveness and political will of the EECCA countries to implement air pollution abatement strategies, to</p>

	<p>1 and R2)</p> <p>A 2 - Series of workshops on emission inventories and reporting obligations in accordance with the EMEP requirements (R3)</p> <p>A 3 - Provision of workshops and technical advice on setting emission reduction targets and base year emission levels (R2)</p> <p>A 4 - Preparation of an outreach publication on air pollution, its effects, CLRTAP and its instruments in Russian (R1 and R3)</p> <p>A 5 - Support to participation of national experts from the EECCA countries in the workshops and meetings including those of relevant Task Forces targeted to building their capacities (R1 and R4)</p>	<p>support</p>	<ul style="list-style-type: none"> - Human resources (experts and consultants, administrative support, per diems) - Travel (tickets cost) - Other (publications, translation, other) 	<p>participate in the activities of the Convention and to join the Convention and its protocols</p>
