Please read the introduction for information about data sources, definitions and measurement units

Important forest sector parameters - historical trends and forecasts: Austria

Ratio of fellings to increment (in percent)

Growing stock (in m<sup>3</sup> o.b. per ha)

Production and consumption of solid wood products (in million m<sup>3</sup>)

Production and consumption of pulp and paper (in million MT)

Derived demand for wood raw materials (in million m<sup>3</sup> WRME)

Consumption of wood raw materials (in million m<sup>3</sup> WRME)

Please read the introduction for information about data sources, definitions and measurement units
