

# Mobilization of Wood Resources for Wood Products and Energy: Challenges for Sustainable Forest Management

## Outcomes of UNECE/FAO and FAO Meetings

Ed Pepke, Forest Products Marketing Specialist  
and Sebastian Hetsch, Consultant  
Food and Agricultural Organization &  
UN Economic Commission for Europe  
Geneva, Switzerland

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Topics

- I. Background for bioenergy developments
- II. FAO seminar, October 2006
- III. UNECE/FAO workshop, January 2007
- IV. Conclusions

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Info sources

- FAO seminar proceedings
- UNECE/FAO workshop proceedings
- UNECE/FAO European Forest Sector Outlook Study
- UNECE/FAO Forest Resources Assessment
- UNECE/FAO TIMBER Database
- International Energy Agency
- EuroStat

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Background issues

- Increasing fossil fuel prices
- Energy security
- Policies to reduce climate change
- Wood industries' wood needs

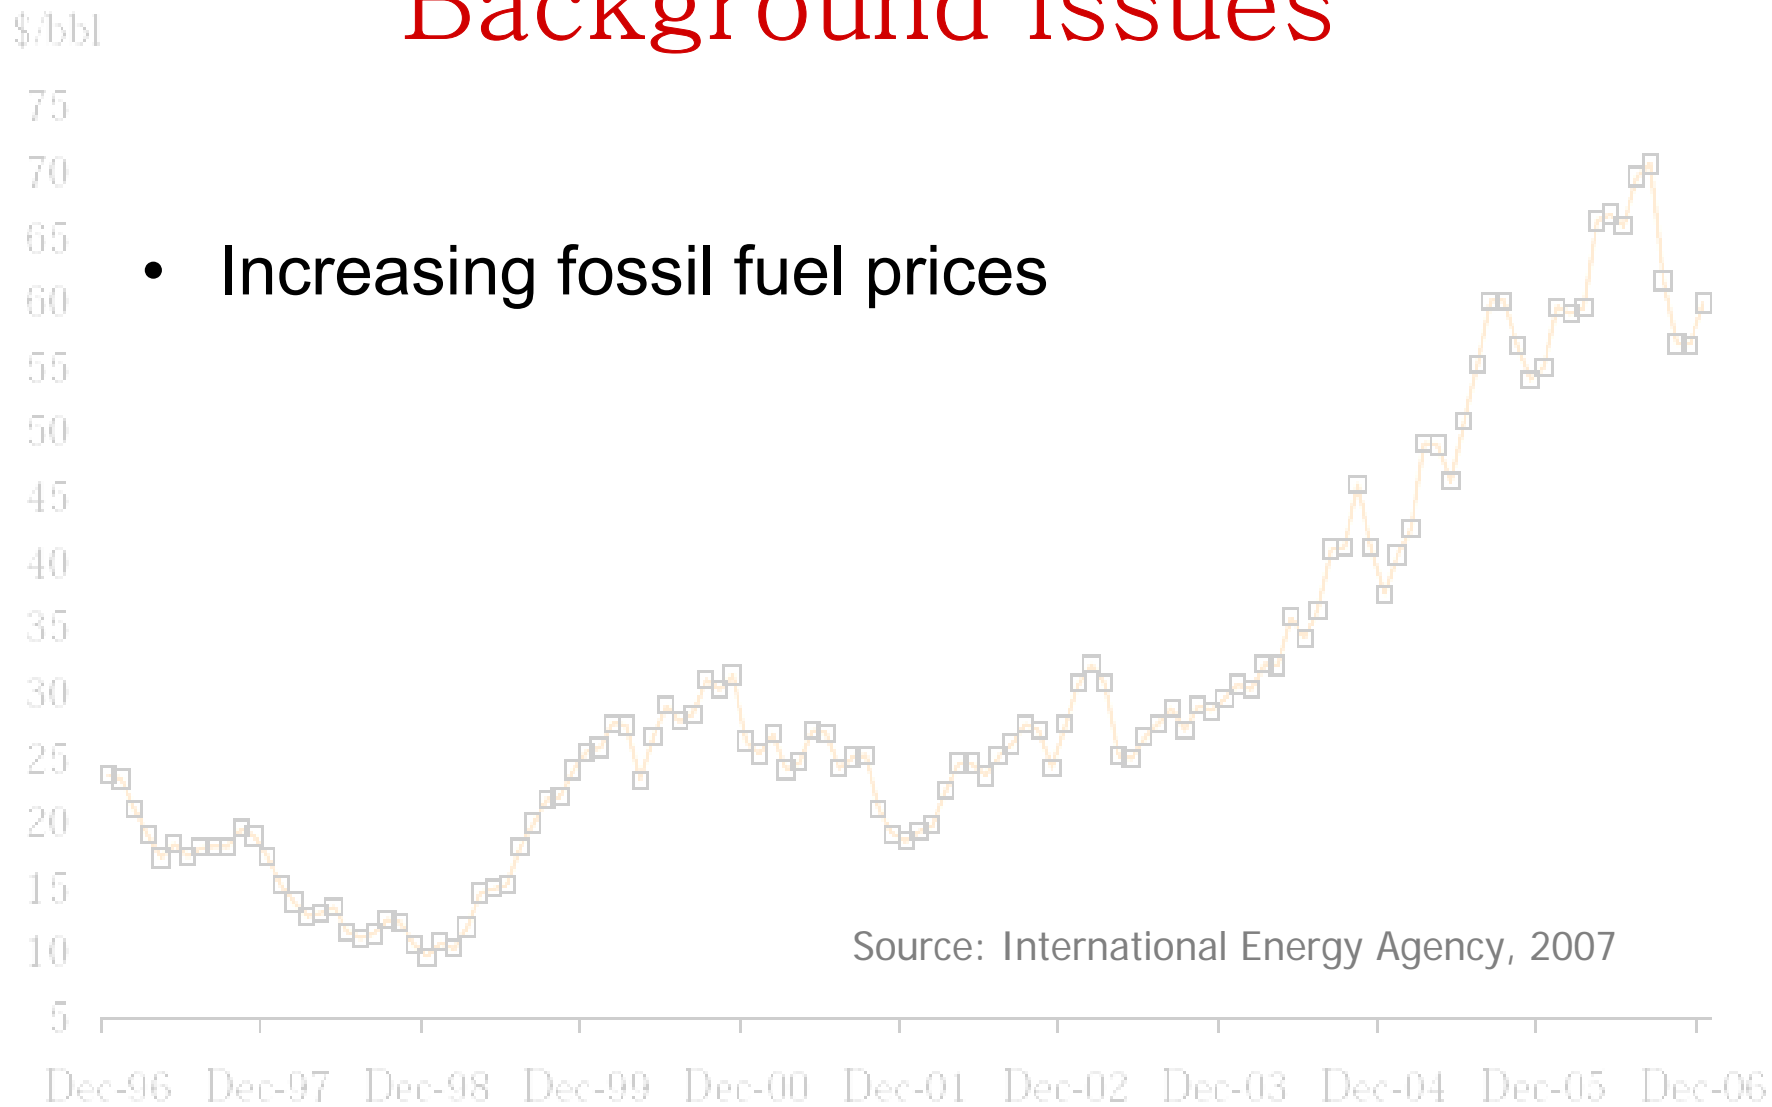

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Background issues

- Increasing fossil fuel prices

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Background issues

- Increasing fossil fuel prices
- Energy security
  - Middle East instability
  - Russian supply interruptions
  - Growing consumption, e.g. China
  - Nuclear safety

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Background issues

- Increasing fossil fuel prices
- Energy security
- Policies to reduce climate change
  - UNECE region
  - Kyoto Protocol
  - European Union & member countries
    - 20% renewable energy target in 2020
  - United States' government lagging behind

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

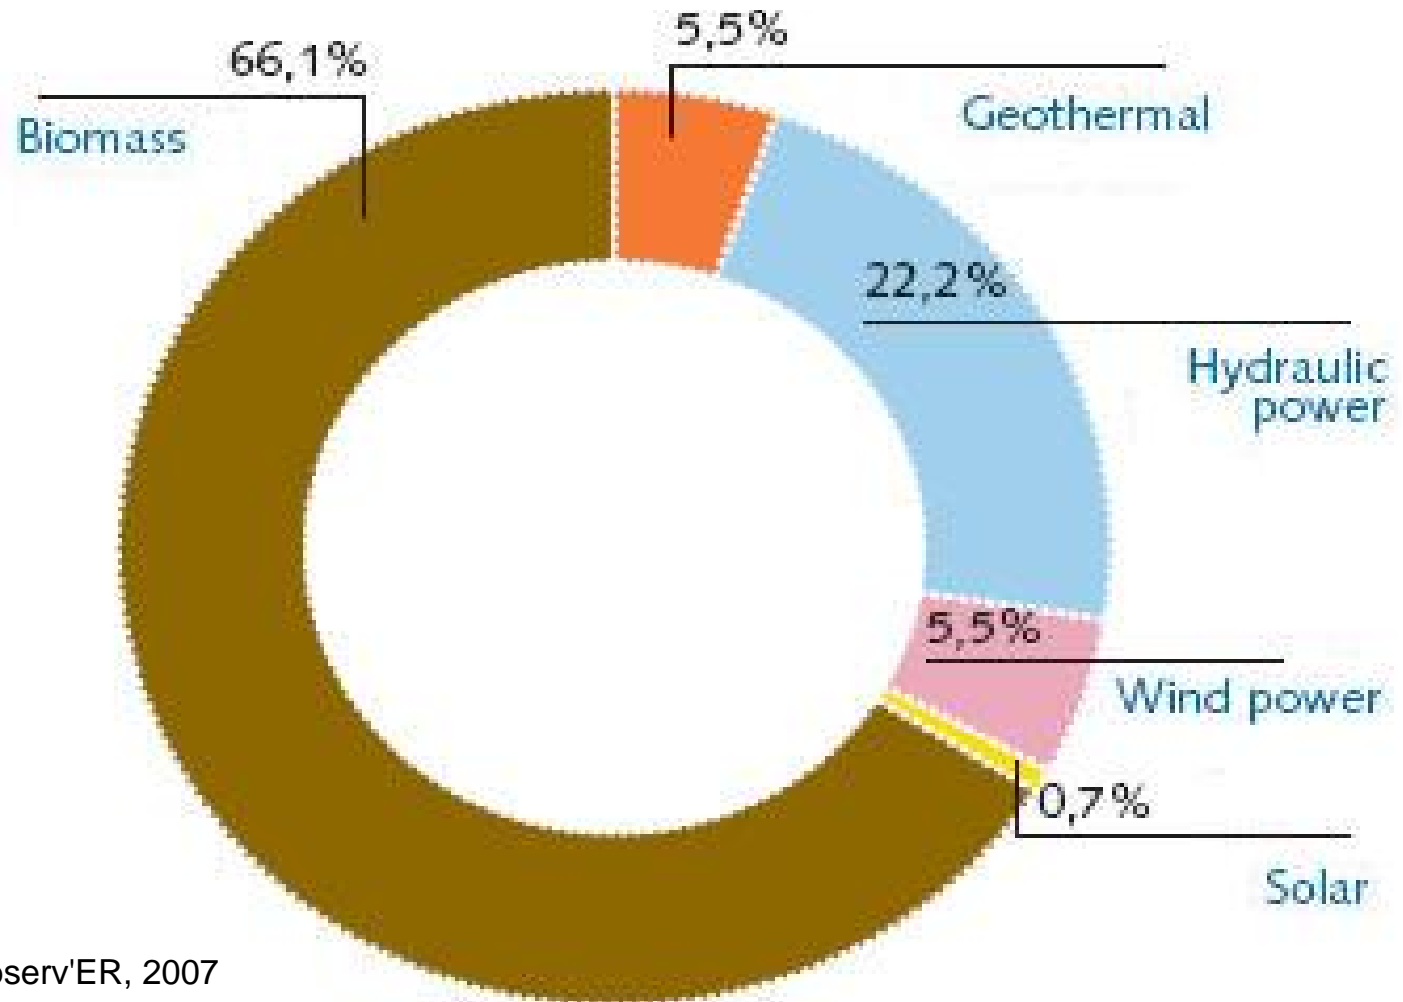

# EU renewable energy 2005

# EU renewable energy 2005

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# EU biomass use, 1990-2004

Source: Eurostat, 2007

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Background issues

- Increasing fossil fuel prices
- Energy security
- Policies to reduce climate change
- Wood industries' wood needs
  - Increasing demand
  - Increasing raw material prices
  - Competition
    - Local can be intense
    - Short-term can be intense

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Western European wood and fibre requirements, 1960-2020

# Supply and demand dilemma in western Europe in 2010

- Wood and paper industry – 312 million m<sup>3</sup> (wood raw material equivalent)
- Energy sector – 210 million m<sup>3</sup> (based on EU targets)
- Forests' annual growth – 505 million m<sup>3</sup> (net annual increment on forests available for wood supply)

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Supply and demand dilemma in Europe in 2010

	Western Europe <sup>2</sup>		Eastern Europe <sup>2</sup>	
	2000	2010	2000	2010
<b>Industrial roundwood consumption</b>	271	312	81	107
<b>Energy targets (direct wood energy only)</b>	139	210	114	?
<b>Total direct wood supply for industry and energy</b>	411	522	195	?
<b>Net annual increment on forest available for wood supply (NB NOT directly comparable!)</b>	515	505	230	219
<sup>1</sup> [million m <sup>3</sup> WRME/year]	<p style="color: blue; text-align: center;">NAI not only source. Wood outside forests. Recovered wood too, e.g. 12 MM m<sup>3</sup> in Germany</p>			
<sup>2</sup> EFSOS country groups (new EU members are				
<sup>3</sup> Very rough estimation on basis of EU25 Biomass

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# International Seminar on Energy and the Forest Products Industry

October 2006, Rome

FAO, IEA, ICFPA, UNECE,  
ITTO, WBCSD

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Energy and the Forest Products Industry Seminar

- Themes
  - Energy policies and trends
  - Role of wood as an energy source
  - Energy and material efficiency in the forest products industry
- Building on results of technical workshop on new technologies and systems leading to energy efficiency and CO<sub>2</sub> emissions reduction in pulp and paper industry

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Energy & industry seminar conclusions

- Integrated and balanced energy and forest policies mitigate climate change
- Local actions with global vision
- Stable, sustainable regulatory frameworks needed for level playing field

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Energy & industry seminar conclusions

- Forest products industry combats climate change by
  - Optimizing raw material usage
  - Increasing efficiency
  - Producing bioenergy
  - Expanding into biofuel production
  - Improving sector competitiveness
- Forest products industry could be a net supplier of energy

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Energy & industry seminar conclusions

- Forest products industry suffers an image problem – must be proactive
- Developing countries need assistance to use forest and mill residues for energy
- International organizations can
  - collect, analyze and distribute data and information
  - Develop partnerships, provide forums
  - Coordinate research

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Mobilizing Wood Resources Workshop

January 2007, Geneva

UNECE/FAO, FAO, CEPI,  
MCPFE, EFI

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Mobilizing Wood Resources Workshop

- Can Europe's forests satisfy the increasing demand for raw material and energy under SFM?
- Stakeholders, over 100, represented industry, government, international organizations, NGOs,

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Mobilizing Wood Resources Workshop conclusions

- Potential for increased wood supply
- Opportunities for increased mobilization

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Forests increasing

- European forest area
  - 193 million hectares
  - +7% since 1990
- North America area
  - 677 million hectares
  - No change since 1990
- Russian forest area
  - 809 million hectares
  - Small reduction since 1990

Sources: *State of the World's Forests*, 2007 and UNECE/FAO Forest Resources Assessment

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Forests increasing

	Fellings as % of annual growth
Central Europe	61%
Nordics & Baltics	72%
Northwest Europe	53%
Southeast Europe	45%
EU 27	60%
Russia	34%
North America	80%

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Mobilizing Wood Resources

## Workshop principles

- Limits of sustainability
- Energy and resource efficiency
- Equal treatment (agriculture vs. forestry, imported vs. domestic)
- Respect regional variations

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Mobilizing Wood Resources Recommendations

- Coherence between different sector policies
- Integrate whole supply chain in biomass strategies
- Need for comprehensive reliable data
- Empower forest owners to form “clusters”
- Improve infrastructure and logistics
- Qualified workforce
- Capacity building and training

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Mobilizing Wood Resources Implementation of findings

- MCPFE resolution on wood energy and mobilization
- UNECE/FAO activity
  - Wood energy data and information
  - Mobilization
  - Policy forum October 2007
- Opportunities for technical, policy assistance to developing countries, e.g. wood energy workshop in Balkan region

International Conference on Wood-based Bioenergy  
LIGNA+ Hannover, Germany, 17-18 May 2007

# Conclusions

- Remember importance of climate change and energy security
- Increase in wood supply possible
- Realistic policy targets
- Requirement for reliable statistics and forecasts
- Consider impacts on other sectors
- Overall, an opportunity for the forest sector
