FORECAST OF THE COMMITTEE ON FORESTS AND FOREST INDUSTRY: FOREST PRODUCT PRODUCTION AND TRADE 2015-2017

UNITED NATIONS

Geneva, 2016

Note

The designations employed and the presentation of material in this publication do not imply the expression of any opinion whatsoever on the part of the secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Abstract

Following the annual Market Discussions of Committee on Forests and the Forest Industry (former Timber Committee) about the current and next year's forest products markets, the Committee issues a statement which includes: overview of the forest products sector, developments in specific forest product market sectors, sawn softwood and sawn hardwood, wood-based panels, wood raw materials including wood energy, pulp and paper, certified forest products and tables summarizing forecasts in Europe, North America and Russia. The Committee also collects data on over 30 individual products for most countries in the UNECE region.

Keywords

forecast, fibreboard, forest products, lumber, logs, OSB, particleboard, plywood, panels, pulp and paper, roundwood, sawnwood, veneer, wood energy, wood particles, wood pellets

Introduction

This publication includes forecasts for the current and next year's forest products markets submitted ahead of the annual Market Discussions of the Committee on Forests and the Forest Industry (COFFI), which was formerly known as the Timber Committee (prior to 2013). It provides the forward looking data to go along with the analysis contained in the Market Statement, which is issued at the COFFI meeting. The forecasted data covers the major forest products of the three subregions of the UNECE Region (Europe, Commonwealth of Independent States and North America). This PDF format, Excel data tables and the COFFI Market Statement are available from the COFFI Market Forecast website at:

<http://www.unece.org/forests/fpm/timbercommittee.html>

Notes

Austrian removals data do not include trees outside the forest.

Bulgarian production figures for sawn hardwood are converted at $1 \text{ m}^3 = 50 \text{ m}^2$

and fibreboard (and subitems) are converted at $1 \text{ m}^2 = 0.0025 \text{ m}^3$

Belgian and Danish softwood logs and sawn softwood are from the International Softwood Conference.

Polish trade data exclude non-reporters (estimated at 1-3% of total). Residues exclude recovered wood. Polish sawnwood data exclude shop lumber and include sleepers. Wood pulp production is in metric tonnes, not air-dried, and excludes recovered fibre pulp.

United Kingdom production figures for OSB and wood pulp are secretariat estimates.

Data on wood chips and residues for Turkey include those from secondary processing.

For tables 1-13, data in italics are secretariat estimates or repeated data. All other data are from national sources and are of course estimates for the current and

future year.

Countries with nil, missing or confidential data for all years on a table are not shown.

Terms and definitions used

“Apparent consumption” is calculated by adding a country's production to imports and subtracting exports. “Net trade” is calculated as exports minus imports. European totals include the countries of Estonia, Latvia and Lithuania as well as Israel, Malta, Turkey and Cyprus.

The term “softwood” is used synonymously with “coniferous” wood and “hardwood” is used synonymously with “broadleaved” and “non-coniferous” wood.

In the tables, countries which have all data 0 or not available are not shown. Minor differences between the text of the market statement and the tables are due to the fact that some figures in the tables were changed after the drafting of the market statement.

^a Countries which did not provide trade data are included in consumption data

^a La consommation comprend les pays qui n'ont pas fourni des données sur le commerce

^b Trade figures by zone do not equal the total as some countries cannot provide data for both zones

^b Les chiffres du commerce par zone ne correspondent pas aux totaux

en raison du fait que certains pays ne peuvent les différencier.

SOME FACTS ABOUT THE COMMITTEE ON FORESTS AND THE FOREST INDUSTRY

The Committee on Forests and the Forest Industry is a subsidiary body of the United Nations Economic Commission for Europe. It constitutes a forum for UNECE member states to consult with each other and work together on issues related to forestry, the forest industry and forest products. All countries in Europe, the Commonwealth of Independent States, the United States, Canada and Israel are members of the UNECE and participate in its work.

Working towards achieving sustainable development, the Committee provides member states with the information and services they need for policy- and decision-making regarding their forest and forest industry sectors, including the trade and use of forest products and, when appropriate, formulates recommendations addressed to governments and interested organizations. To this end, it makes the following commitments:

1. With the active participation of member states, to undertake short-, medium- and long-term analyses of developments in, and having an impact on, the forest sector, including those offering possibilities for the facilitation of international trade and for enhancing the protection of the environment.
2. In support of these analyses, to collect, store and disseminate statistics relating to the sector, and carry out activities to improve their quality and comparability.
3. Provide the framework for cooperation e.g. by organizing seminars, workshops and ad hoc meetings and setting up ad hoc groups for the exchange of economic, environmental and technical information between governments and other institutions of member states for developing and implementing policies leading to the sustainable development of the forest sector and to the protection of the environment in their countries.
4. Carry out tasks identified as being of priority, including the facilitation of subregional cooperation and activities in support of the economies in transition of central and eastern Europe.
5. To keep under review its structure and priorities and cooperate with other international and intergovernmental organizations active in the sector, and in particular with the Food and Agriculture Organization of the United Nations and its European Forestry Commission, and with the International Labour Organization, to ensure complementarity and avoid duplication, thereby optimizing the use of resources.

UNECE/A Geneva Timber and Forest Study Papers

The UNECE/FAO Geneva Timber and Forest Study Paper series contains annual and periodic analyses of the forest and forest industries sector. These studies are the official outputs of regular activities conducted within the Integrated Programme of Work of the UNECE Committee on Forests and the Forest Industry and the FAO European Forestry Commission and are intended to contribute to policy formation. Target audiences are governments, industry, research institutions, universities, international organizations, non-governmental organizations, as well as experts from other sectors. These publications often form the basis for discussions of the Committee and the Commission and their subsidiary bodies.

Study papers are usually based on statistics, forecasts and information submitted by country correspondents in the UNECE region (Europe, North America and Commonwealth of Independent States). The basic information is often submitted via agreed questionnaires, and then complemented by expert analysis from outside and within the secretariat. Although study papers are usually issued on the responsibility of the secretariat, most often they are the work of many contributors outside UNECE/FAO.

When possible, the Study Papers are translated into the three official languages of UNECE: English, French and Russian. They are United Nations sales publications and are distributed accordingly through United Nations bookstores and their affiliates. They are automatically distributed to heads of delegation of the Committee and the Commission, as well as nominated repository libraries, information centres and official distribution lists. They are also available from: publications@un.org and as downloads from www.unece.org/forests

**Forecast of the Committee on Forests and Forest Industry:
Forest Products Production and Trade 2015-2017**

Following the annual Market Discussions of the Committee on Forests and the Forest Industry (former Timber Committee) about the current and next year's forest products markets, the Committee issues a statement which includes: overview of the forest products sector, developments in specific forest product market sectors, sawn softwood and sawn hardwood, wood-based panels, wood raw materials including wood energy, pulp and paper, certified forest products and tables summarizing forecasts in Europe, North America and Russia. The Committee also collects data on over 30 individual products for most countries in the UNECE region

UNECE Committee on Forests and the Forest Industry and FAO European Forestry Commission

Further information about forests and forest products, as well as information about the UNECE Committee on Forests and the Forest Industry and the FAO European Forestry Commission is available on the website: www.unece.org/forests.html
