Item 3 (g) of the provisional agenda

PROPOSAL FOR THE REVISION OF STANDARD FFV-23

MELONS

Note by the secretariat

This document was submitted by the delegation of the European Union and is reproduced in the form in which it was received.

Proposal for the revision of Standard FFV-23 (Melons)

1. In section II (Provisions concerning quality), A (Minimum requirements), second paragraph, amend footnote 2 to read as follows:

“2 The refractometric index of the pulp measured at the middle point of the fruit flesh and at the equatorial section must be greater than or equal to 10% Brix for cantaloupe type melons and 8% Brix for other melons.”
