At the last session the delegation of the United States proposed to prepare a proposal on sizing by diameter.

(b) *Melons*

[TRADE/WP.7/GE.1/2005/4 (Switzerland, France)]

The delegations of Switzerland and France proposed to clarify the commercial types in the standard as they are used in the marking and maturity requirements. The Specialized Section agreed that this could be useful if it would not complicate the standard.

(c) *Table grapes*

[TRADE/WP.7/GE.1/2005/5 (South Africa)]

At the last session the Specialized Section decided to ask South Africa to prepare a new proposal based on the comments made and by merging in the list proposed by Turkey. All interested delegations should send any further comments directly to South Africa.

The issue of trade-marked varieties with special requirements will be dealt with once the list was completed.

4. UNECE Recommendations in trial period

(a) *Apples*

TRADE/WP.7/GE.1/2004/9 (New Zealand)

[TRADE/WP.7/GE.1/2005/6 (Secretariat)]

TRADE/WP.7/GE.1/2005/7 (New Zealand)

[TRADE/WP.7/GE.1/2005/8 (European Community)]

[TRADE/WP.7/GE.1/2005/9 (Copa-Cogeca)]

The text of the recommendation will finish its trial period in November 2005. The following issues will be discussed at the session:

- Weight/diameter relationship for the determination of the minimum size and uniformity provisions

At the last session several options were discussed but delegations felt that more time was needed to study them.

- Maturity requirements

At the last session this issue was discussed in detail. All interested delegations were invited to provide data on brix values and flesh firmness to the secretariat as had been done by New Zealand in document 2004/9.

- List of varieties

The delegation of Germany sent a request to their Federal Office on Variety Protection concerning the variety Rubin. The answer was that they only know the Czech variety (Golden Delicious x Lord Lambourne) and no other variety of Rubin is known by them.

Concerning the variety Rubin (Kazakhstan) it should carefully be checked whether Rubin is the true variety name, whether synonyms are known and whether any information could be provided to highlight the difference between the two Rubin varieties.

(b) *Bilberries and blueberries*

[TRADE/WP.7/GE.1/2005/10 (France)]

The text of the recommendation will finish its trial period in November 2005.

The delegation of France and the secretariat will report on the replies to a questionnaire they sent to producer countries concerning the correct denomination of "Billberries" or "Blueberries" in different languages.

(c) *Early and Ware Potatoes*

TRADE/WP.7/GE.1/2004/7 (Text of the recommendation in trial period)

TRADE/WP.7/GE.1/2005/11 (France)

The text of the recommendation will finish its trial period in November 2005.

The joint standard for Early and Ware Potatoes (TRADE/WP.7/GE.1/2004/7) was adopted as UNECE recommendation for a one-year trial period to allow comments from interested parties. The trade organization EUROPATAT had indicated to the secretariat that some of their members were not in favor of a joint standard but up to now no written justification was available.

The delegations of France and Belgium have submitted proposals for the amendment of the standard.

TRADE/WP.7/GE.1/2005/13 (Germany)

The delegation of Germany proposes a way to deal with the inter-specific hybrids derived from plums and apricots in the standard.

(g) Truffles

The recommendations under (e), (f) and (g) are in trial period until 2006. Discussions on these texts will only held if requested.

6. Amendments to the general texts

(a) Control certificate/ UNeDocs

[TRADE/WP.7/GE.1/2005/15]

At the last session of the Working Party a working group was formed to align the present UNECE control certificate with the UN layout key (defining format and semantics) in line with the UNTDED (United Nations Trade Element Directories). The working group (Chairman, Secretariat, UN/CEFACT) will report on their work.

(b) Point of application/Standard layout

TRADE/WP.7/GE.1/2005/16 (Germany)

At the last session of the Working Party the delegation of Germany offered to prepare a proposal based on the European Community regulations for a new wording in the standard layout to acknowledge the fact that UNECE Standards are applied in all stages of marketing.

(c) Experiences with the template for requesting inclusion of apple varieties

TRADE//WP.7/GE.1/2004/25/Add.9

At the last session an updated version of the template was created (See TRADE//WP.7/GE.1/2004/25/Add.9). Delegations are invited to report on any experiences with the template and to decide if templates for other products should be created.

(d) Terms of reference

The working group will report on progress made on the work on new terms of reference/ Geneva protocol.

7. Use of codes marks in UNECE Standards - possibility for internationally harmonized marks

At a previous session it was mentioned that the use of code marks increases and that there should be some harmonization in the codes used, for example that each code could start with the relevant ISO country code. At the last session it was decided that delegations should discuss this issue with trade and prepare a proposal for the next session.

8. WHO strategy on diet, physical activity and health

The secretariat will report on the implementation status of the strategy and the cooperation with WHO on the creation of promotional material (posters, postcards).

9. List of authorities for exchange of information on non-conformity cases

At the last session it was decided that the UNECE secretariat should check with the OECD if a link to their list could be established on the website and if the list could be further extended with contacts from countries that are not members of the OECD Scheme.

10. Application of UNECE Standards

TRADE/WP.7/GE.1/2005/17

The delegation of Germany has reviewed the list of acceptances and made a proposal for its revision to make it better readable. Delegations are invited to check the proposals and the list carefully so that a decision on the format can be taken at the session. The secretariat will also distribute the list to countries not usually participating to get their opinion.

11. Workshops, seminars, training courses and other activities concerning capacity building for the application of quality standards

The Specialized Section will be informed about different capacity building activities planned for or held in 2005.
