Documents marked with an asterisk contain, in addition to the amendments proposed by the Specialized Section, some notes by the secretariat for a possible harmonization with the text agreed at the Codex Committee for Fresh Fruit and Vegetables. According to the working procedures, the Working Party can tentatively agree such amendments, in order to avoid delays, if it considers them to be minor technical points.

The secretariat has received information about Latvian varieties of Apples, Pears and Plums which are included in document TRADE/WP.7/2002/8. The Working Party is invited to consider whether these should be included now in the relevant lists to avoid delays.

(c) Numbering system of the standards

Background: TRADE/WP.7/GE.1/2001/19, para.167
TRADE/WP.7/GE.1/2002/20, para. 123 to 129
TRADE/WP.7/2001/3
TRADE/WP.7/GE.1/2002/16
Document: TRADE/WP.7/2002/4

At the last session of the Working Party the secretariat proposed changing the numbering system used in UNECE standards to a legal numbering system (e.g. 1, 1.2, 1.2.1) (see TRADE/WP.7/2001/3).

Advantages of this system are that

- references to all parts of the text are easily possible;

- no letters are needed in the numbering (avoids problems with cyrillic);
- standards are in line with ISO standard 2145:1978 on “Numbering of divisions and sub-divisions in written documents”.

For the last session of GE.1 the secretariat prepared a comprehensive example based on the Citrus Fruit Standard (see TRADE/WP.7/GE.1/2002/16). In addition the “Provisions concerning quality” had been split into its three sub-sections to keep the numbering depth low (four numbers).

The Specialized Section agreed to having a separate section for Maturity requirements but preferred to keep the three sections under the existing heading so that the concept of quality was not lost.

In document TRADE/WP.7/2002/4 the secretariat presents a new example on the basis of the Apples standard.

(d) Use of trade marks in UNECE standards

Background: *TRADE/WP.7/GE.1/2002/20, paras 116 to 121*

Document: *TRADE/WP.7/2002/5*

ITEM 4 Specialized Section on Standardization of Dry and Dried Produce (Fruit)

Document: *TRADE/WP.7/GE.2/2002/14 (Report of the 49th session)*

The Working Party will be informed on the outcome of the forty-ninth session of the Specialized Section and will be invited to take decisions on the following issues:

(a) UNECE Standard for Inshell Walnuts

Background: *TRADE/WP.7/GE.2/2002/14, para. 18*

Document: *TRADE/WP.7/GE.2/2002/3*

The amendments contained in document TRADE/WP.7/GE.2/2002/3 are proposed for adoption as a revised UNECE Standard for Inshell Walnuts.

Background: *TRADE/WP.7/GE.2/2002/14, paras. 92 to 94*

Document: *TRADE/WP.7/GE.2/2002/14/Add.1*

The annex to the standard layout on determination of the moisture content for dry fruit (nuts) is recommended for adoption. It will then be automatically included in all relevant standards.

(c) Information concerning the joint publication of the colour chart for walnut kernels by OECD and UNECE

Background: *TRADE/WP.7/GE.2/2002/14, paras. 19 to 21*
