**II. EXPLANATORY MEMORANDUM (Justification  
of the proposed amendments)**

**Paragraph 7 (Ad Article 8 of the Convention)**

Driving while under the influence of alcohol is a determining factor in road accidents. Many countries have therefore taken steps to lower the existing maximum alcohol level permitted by the European Convention supplementing the Convention on Road Traffic, i.e. 0.80 g per litre of pure alcohol in the blood (or 0.40 mg per litre in the air expelled). In a concern to improve road safety within Europe, the aim of the proposed amendment is to reduce the present level by bringing it into line with the level most frequently applied by countries which have taken more stringent measures in this regard; increasing numbers of other countries are tending, towards this level of 0.5 g per litre of pure alcohol in the blood or 0.25 mg per litre in the air expelled, which is also recommended by the European Union.

**Paragraph 12 (Ad Article 13 of the Convention)**

The proposed amendment is intended to correct the numbering of paragraph 4 which becomes paragraph 6.

**Paragraph 18 (Ad Article 23 of the Convention)**

The aim of the amendment is to extend the prohibition on standing or parking to crossings for cyclists (within 5 m of such crossings) in order to ensure visibility both for cyclists and vehicles approaching the crossing.

**Paragraph 20 (Ad Article 27 of the Convention)**

The aim of the amendment, taking into account the proposed changes to Article 27.4 of the Vienna Convention on Road Traffic, is to adapt the existing text of the European Agreement in parallel by incorporating the relevant changes.
