

Subject: Proposal for incorporation of COP requirements for colour durability

India's comments:

India while agreeing in principle with the proposal, feels that footnote which reads:

" ***/ *Representative distribution over categories, worst case, meaning a group of coated lamps using the same technology within the categories with the toughest conditions for the coating.*"

lacks clarity on the description of the worst case and could lead to difficulties of interpretation. It is requested that GRE may kindly elaborate the phrase "*the toughest conditions*" further.
