from ENGVA and ISO

Informal document No. GRPE-50-18  
(50th GRPE, 30 May-3 June 2005,  
agenda item 12.2.)

**Preparation of an ISO Round Table on the Global Harmonization of  
Regulations, Codes & Standards (RC&S) for Gaseous Fuels & Vehicles**

Transmitted by the experts from ENGVA and ISO

Since our last GRPE meeting in January this year, we are pleased to advise you that we have made good progress in preparing the ISO Round Table Event on Global Harmonization of RC&S for Gaseous Fuels and Vehicles. An initial programme was reviewed with representatives of ISO, ENGVA/IANGV and UN ECE on 1 June 2005.

As part of the proposed programme, we plan to conduct a survey of stakeholders including UN/ECE members, ISO, Industry and others. The survey findings will be used to provide input into the Round Table.

Further work needs to be done before the event is announced. We estimate that the Round Table will be held between March and June 2006.

Further details will be available at the next GRPE meeting in January 2006.

---

This briefing paper was prepared jointly by ENGVA, IANGV, and ISO as an informal document for the United Nations World Forum for Harmonization of Vehicle Regulations (WP.29) and its Working Party on Pollution and Energy (GRPE).
