

Criteria for data collection and discussion about the methods (+, 0 or -)

Workpackages

fitness for purpose
(distinguish bad and good
1 vehicles)

**applicable for all kind of
technologies (manual,
2 automatic / CVT / ...)**
manual transmission
automatic transmission / CVT

3 accuracy (repeatability, ...)

4 costs
workload/time
equipement

G / F	Japan	DeGraaff	Gerhard
OK, but ...	OK, to check for man.tr.	OK, check the slopes	OK, to be checked
OK		dep. on gear selection	
	to discuss	to be checked	check range
	OK	to be checked	to be checked
same order (can be improved)	same order (can be improved)	same order (can be improved)	doubtable
131%	100%	131%	<100%
continuous meas.	no extra	no extra	no extra

Open points

G / F	Japan	DeGraaff	Gerhard
veh. with high tyre noise contribution			
relation with limit for CVT			
improvement of uncertainty	improvement of uncertainty	improvement of uncertainty	improvement of uncertainty
	improve for manual transm.		
		high power- torque/mass veh.	
			sensitivity for execution of the test
