

## COMMITTEE OF EXPERTS ON THE TRANSPORT OF DANGEROUS GOODS AND ON THE GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS

Sub-Committee of Experts on the  
Transport of Dangerous Goods

Thirty-first session  
Geneva, 2-6 July 2006  
Item 6 of the provisional agenda

### MISCELLANEOUS PROPOSALS OF AMENDMENTS TO THE MODEL REGULATIONS ON THE TRANSPORT OF DANGEROUS GOODS

#### Periodic inspection and test

Transmitted by the expert from Belgium

#### **Introduction**

Sub-section 6.2.1.5 sums up the general requirements concerning the periodic inspections and tests for refillable pressure receptacles, other than cryogenic receptacles. The periodicities are, however, not given in this sub-section; they are to be found in packing instruction P200 in 4.1.4.1.

The introduction in 6.2.1.5 of an indication where to look for the test periods would undoubtedly be very helpful to users that are less familiar with the Model Regulations.

#### **Proposal**

Add the following Note 3 at the end of 6.2.1.5.1:

*“NOTE 3 : For periodicities see P200.”*
