

**COMMITTEE OF EXPERTS ON THE TRANSPORT OF
DANGEROUS GOODS AND ON THE GLOBALLY
HARMONIZED SYSTEM OF CLASSIFICATION
AND LABELLING OF CHEMICALS**

Sub-Committee of Experts on the
Transport of Dangerous Goods

Thirty-fourth session
Geneva, 1-9 December 2008
Item 7 of the provisional agenda

**MISCELLANEOUS PROPOSALS OF AMENDMENTS TO THE MODEL REGULATIONS
ON THE TRANSPORT OF DANGEROUS GOODS**

Salvage Pressure Receptacles

Transmitted by the European Industrial Gases Association (EIGA)

1. The expert from Germany has transmitted document ST/SG/AC.10/C.3/2008/91. Members of the European Industrial Gases Association are occasionally called upon to provide specialist support and equipment to recover pressure receptacles that may, for example have been damaged or have inoperable closures.
 2. Such pressure receptacles need to be transported safely to facilities that have the equipment to be able to safely recover the product contained in the pressure receptacle.
 3. The European Industrial Gases Association supports the proposals as detailed in ST/SG/AC.10/C.3/2008/91, and should the Sub-Committee feel the need to start work on general technical requirements would be prepared to take part in this.
