Pending proposals

Proposal to amend Annex 1, Appendix 3, A. Model form of certificate of compliance of the equipment, as prescribed in annex 1, appendix 1, paragraph 4*

Transmitted by the Government of Portugal

* The present document is submitted in accordance with the Programme of Work for 2008-2012 of the Inland Transport Committee (ECE/TRANS/2008/11, Item 2.11 (a)) which calls for the “Consideration of amendment proposals to ATP to ensure it is updated as necessary”.

GE.08-
SUMMARY

Executive summary: The ATP model certificate is shown in Annex 1, Appendix 3 A. In spite of this, there is no uniformity in the ATP certificates delivered by different competent authorities. Totally different certificates can be found, with one single page, two pages or even three pages and some of them without any security system to prevent copy forgeries.

Action to be taken: Amend Annex 1, Appendix 3, A.

Related documents: ECE/TRANS/WP.11/2007/14, ECE/TRANS/WP.11/2006/9, ECE/TRANS/WP.11/2006/1

Introduction

1. In order to attain greater uniformity and security, and taking into account some of the suggestions made by delegates at the 63rd session on document ECE/TRANS/WP.11/2007/14, Portugal proposes that a new revised standard ATP Certificate model be adopted and replace the existing one.

Proposal

2. Replace the ATP Certificate model in Annex 1, Appendix 3, A.

Annex 1, Appendix 3

A. Model form of certificate of compliance of the equipment, as prescribed in annex 1, appendix 1, paragraph 4

FORM OF CERTIFICATE FOR INSULATED, REFRIGERATED, MECHANICALLY REFRIGERATED OR HEATED EQUIPMENT USED FOR THE INTERNATIONAL CARRIAGE OF PERISHABLE FOODSTUFFS BY LAND

After this point, all the remaining text of A. should be replaced by the new ATP Certificate model proposed (see pages 3 and 4)

Justification

3. If all countries used a standard ATP Certificate, the work of competent surveillance authorities would be simplified, and they would be able to detect more easily some of the forgeries that are employed today.

Feasibility

4. The introduction of the amendment to Annex 1, Appendix 3 A. would only require a simple software adaptation.

Enforceability

6. No problem of enforcement is foreseen.
