EXPLOSIVES AND RELATED MATTERS

Proposal for the wording of the definition of net explosive mass.
Editorially modified alternative to the proposal in the report of the explosives working group.

Add to 1.2.1 Definitions:

“Net explosive mass (NEM) means the total mass of the explosive substances, without the packaging's, casings, etc.;
(In practice net explosive quantity (NEQ), net explosive content (NEC), or net explosive weight (NEW) are often used with the same meaning.)”

Ajouter à 1.2.1 Définitions:

“Masse nette de matières explosives, la masse totale des matières explosives, sans emballages, enveloppes, etc.;
(Dans la pratique, la quantité nette de matières explosives, le contenu net de matières explosives , ou le poids net de matières explosives sont souvent utilisés dans le même sens.)”
