PROPOSALS FOR AMENDMENTS TO RID/ADR/ADN

Verification of the chemical compatibility for IBCs

Transmitted by the Government of Belgium

Introduction

At the end of the third paragraph of 6.5.6.3.5:

– in ADR it is stated “After the storage, the test samples shall undergo the tests prescribed in 6.5.5.4 to 6.5.5.9” ; these sub-section numbers are wrong (RID quotes the correct numbers 6.5.6.4 to 6.5.6.9);

– reference 6.5.6.13 to the vibration test has been forgotten both in RID and ADR.

Proposal

Replace the last sentence of 6.5.6.3.5 with: “After the storage, the test samples shall undergo the tests prescribed in 6.5.6.4 to 6.5.6.9 and 6.5.6.13.”
