

**METHODOLOGICAL DEVELOPMENT AND HARMONIZATION  
OF TRANSPORT STATISTICS**

Pilot questionnaire on road traffic performance

Prepared by the secretariat

1. The Intersecretariat Working Group (IWG) considered the pilot questionnaire on road traffic performance developed by Eurostat for voluntary data collection on road VKm.
2. The questionnaire consists in 4 tables (with priority to tables 1 and 2) measuring road traffic volumes with different breakdowns: by type of vehicle; by type of vehicle and road; by type and age of vehicle; and by type of vehicle and age/gender of driver:

**Table1. Road traffic by type of vehicle**

National vehicles on national territory (30 Questions)

Foreign vehicles on national territory (30 Questions)

Total vehicles on national territory (30 Questions)

National vehicles on foreign territory (30 Questions)

Total national vehicles (30 Questions)

**Table 2. Road traffic on national territory by type of vehicle and type of road**

Total of which on Trans-European Networks (TEN-T) (22 Questions)

Motorways (11 Questions)

Other roads (33 Questions)

**Table 3. Road traffic on national territory by type and age of vehicle**

Passenger cars (28 Questions)

Buses and coaches (9 Questions)

Motorcycles (9 Questions)

Goods vehicles  $\leq$  6 tonnes (9 Questions)

Goods vehicles  $>$  6 tonnes (9 Questions)

**Table 4. Road traffic on national territory by type of vehicle and age of driver**

Male (45 Questions)

Female (45 Questions).

3. Eurostat developed a tool to link this questionnaire with the Web version of the Common Questionnaire (see tables below).
