Sixty-fourth session

Geneva, 04-07 October 2010

Item 10(b) of the provisional agenda

Regulation No. 19 (Front fog lamps)

Proposal for Corrigendum 1 to the 04 series of amendments

Submitted by the experts from the Working Party "Brussels 1952"*

The text reproduced below was prepared by the expert from the Working Party "Brussels 1952" (GTB) in order to correct an error concerning the transitional provisions introduced in the 04 series of Regulation No. 19. The modifications to the existing text of the Regulation are marked in strikethrough for deleted characters.

* In accordance with the programme of work of the Inland Transport Committee for 2006–2010 (ECE/TRANS/166/Add.1, programme activity 02.4), the World Forum will develop, harmonize and update Regulations in order to enhance the performance of vehicles. The present document is submitted in conformity with that mandate.

I. Proposal

Paragraph 14.1.5., correct to read:

- “14.1.5. Contracting Parties applying this Regulation may prohibit the fitting of devices, which do not meet the requirements of the 03 ~~or 04~~ series of this Regulation:
- 14.1.5.1. on vehicles for which type approval or individual approval is granted more than 24 months after the date of entry into force of the 03 series of amendments.
- 14.1.5.2. on vehicles first registered more than 60 months after the date of entry into force of the 03 series of amendments.”

II. Justification

1. The transitional provisions in Regulation No. 19 deal with both the type approval of the front foglamp and its installation on the vehicle. Most of the transitional provisions are associated with the 03 series of amendments and these are in fact carried through into the 04 series.
2. The difference between the 03 and 04 series of amendments is that the 04 series introduces the photometry at 13.2 volts instead of 12.0 volts and it was necessary to introduce transitional provisions of 60 months to allow laboratories the necessary time to change their equipment and measuring software.
3. While drafting the proposals for the 04 series of amendments, GTB introduced an error into paragraph 14.1.5. by referring to the 03 and 04 series when reference should have only been made to the 03 series.
4. The adopted chart summarizing the transitional provisions and included in ECE/TRANS/WP.29/GRE/2009/48 is below.

Regulation No. 19 (Front fog lamps)

Summary of Transitional Provisions for Class B & Class F3

(Assuming that Regulation No. 19, 04 series of amendments enters into force January 2011)
