Informal document No. **GRSG-99-20**
(99th GRSG, 19-22 October 2010
agenda item 9)

Proposal for amendments to Regulation No. 121
(Identification of controls, tell-tales and indicators)

A. PROPOSAL

In Table 1 of R121 (English version), amending the terms “dipped beams” and “high beams” by “passing beams” and “driving beams”.

2.	Headlamp dipped passing beams	 1/, 6/, 13/	Control	No	-
			Tell-tale	Yes	Green
3.	Headlamp high driving beams	 1/ 13/	Control	No	-
			Tell-tale	Yes	Blue

B. JUSTIFICATION

In order to keep the same terminology among UNECE regulations, this amendment is proposed to reflect the terminology widely used in Regulations 48, 53, 60 and 112. While terms “main beams” and “dipped beams” are also used in R48 and R53, they are neither in R60 nor in R112. The term “high beams” is not used in any regulation.
