Geneva, 24–27 January 2011

Item 4 of the provisional agenda

**Proposals for amendments to the Regulations annexed to ADN**

---

**Omission in table C: UN 3475****Request for mandate for substances working group****Submitted by the Netherlands****UN 3475 in table C**

The product UN 3475: ETHANOL AND GASOLINE MIXTURE or ETHANOL AND MOTOR SPIRIT MIXTURE or ETHANOL AND PETROL MIXTURE, with more than 10% ethanol, is currently listed in table A. In column 8 (carriage permitted 3.2.1) a "T" is entered. In the explanatory notes it is stated: *If column (8) contains code "T", carriage is permitted in packages and in tank vessels. In the event of carriage in tank vessels, the requirements of Table C are applicable (see 7.2.1.21).*

It seems the Safety/Administrative Committee has failed to make an entry for table C for this product. The Netherlands delegation would like to suggest the Safety Committee gives a mandate to the substances working group to draw up a proposal for such an entry. The entry could be entered into ADN 2013.

**Special Authorization**

The Netherlands would like to inform the ADN secretariat and the member states that we have received a request for a Special Authorization for the transport of UN 3475. The transport is intended to take place *within* the Netherlands only. The authorization has not yet been granted. The application; the material safety data sheet; and the proposed entry for table C are included and can be used by the substances working group, should they receive their mandate.
