

Proposal for amendments to ECE/TRANS/WP.29/GRSG/2011/25

I. Proposal

Annex 3, paragraph 10.9.2., amend to read:

"10.9.2. Rigid plastic ~~glazing~~ **panes** (paragraph ~~2.5.1.~~ **2.6.1.** of this Regulation), flexible plastic ~~glazing~~ **panes** (paragraph ~~2.5.2.~~ **2.6.2.** of this Regulation) and rigid plastic double glazed units shall be considered satisfactory from the point of view of the fire resistance test if the burn rate does not exceed ~~90~~ **110** mm/min."

II. Justification

When transforming Informal document No. GRSG-100-04 into ECE/TRANS/WP.29/GRSG/2011/25, the proposed burn rate was wrongly set at 110 mm/min instead of 90 mm/min. It should be the other way around.
