

Proposal for amendments to Regulation No. 107 (M₂ and M₃ vehicles)

I. Proposal

Insert a new paragraph 10.24., to read:

"10.24. Notwithstanding paragraphs 10.22. and 10.23. approvals of vehicle granted to the preceding series of amendments to the Regulation, which are not affected by the 05 series of amendments, shall remain valid and Contracting Parties applying the Regulation shall continue to accept them."

II. Justification

The transitional provisions currently lack the provisions that allow maintaining valid the preceding series of amendments for vehicles that are not affected by the 05 series of amendments (mandatory equipment of an alarm system detecting excessive temperature in some compartments not directly visible to the occupants).
