Annual Statistical Work Programme 2013

Objective 08.3 Provide energy and transport statistics

With the objective of supporting the Union policies, energy and transport statistics are to be provided.

In the 2013-2017 period, the objective will be implemented by the production and dissemination of statistics on:

...

- Transport safety, passenger mobility, road traffic measurement and intermodal freight transport.

Main activities covered by the objective in 2013:

- Work will focus on improving timeliness and quality of energy and transport statistics in particular for most aggregated data and specific indicators;
- The work on estimating CO2 emissions from transport and energy will be pursued and results will be published;

...

- The project on transport intermodality will deliver proposals aimed at a more harmonised and integrated transport statistics legal framework;
- Proposals on transport mobility will be submitted for discussion with Member States, international organisations, and Commission services.
