Economic Commission for Europe

Inland Transport Committee

Seventy-sixth session

Geneva, 25–27 February 2014

Item 15 of the provisional agenda

List of publications for the period 2016–2017

Tentative list of publications for the biennium 2016–2017 for the Transport Subprogramme

Note by the secretariat

1. The work of the Transport Subprogramme is based on three pillars: (i) regulatory work and policy dialogue, (ii) capacity building and technical assistance and (iii) analytical work. These pillars represent the core of our activities. Publications and the analytical activities are closely linked to the regulatory and normative work. In addition they constitute a backbone of our technical assistance and capacity building program.
2. The number of publications produced by the Transport Subprogramme has been on a consistent, upward trajectory over the last biennium. The quality of these publications demonstrates the Subprogramme's ability to be an analytical leader in the field of inland transport.
3. Annex I gives information of the papers prepared and published in the last biennium, i.e. in 2012-13. Annex II includes the list of publications planned and approved through the program-budgeting process for 2014-15. Annex III includes those publications that had been originally planned for this current biennium, but they had not been approved and thus their delivery may need to be postponed to the 2016-2017 biennium unless they can benefit from extra-budgetary resources.
4. The Committee is requested to take note of the info about the results of the past biennium, of the approved short list of publications planned for the current biennium and to consider volunteering in assisting the publication of those that have been left out. Your views and clarifications of the expectations would be of great value for the planning for the year 2016-2017.

Annex I: Actual published work, 2012-2013

<i>No. Recurrent</i>				
Title	Planned	Delivered	Postponed/ terminated	Comment
1 European Code for Inland waterways (CEVNI) (print and electronic)	Y		Y	Postponed
2 Agreement on the International Carriage of Perishable Foodstuffs and on the Special Equipment to Be Used for Such Carriage (ATP)	Y	Y		
3 Annual Bulletin of Transport Statistics for Europe (1 in 2008; 1 in 2009)	Y	Y		Carried forward
