Draft suggestion 1.6.5.17

Transmitted by the representatives from NGV Global and AEGPL

Please find our modified suggestion for 1.6.5.17

1.6.5.17 Vehicles used for the carriage of liquids and hydrogen peroxide (according to 9.1.1.2) registered before 1 July 2017, fitted with an LNG, CNG or LPG fuel system, not fully in compliance with the provisions found in ECE Regulations No. 110 and No. 67 respectively, may still be used with the approval of the competent authority of the country of use, if an equal level of safety can be demonstrated.
