Working Party on the Transport of Perishable Foodstuffs

Seventy-first session

Geneva, 6-9 October 2015

Item 4 (e) of the provisional agenda

Status and implementation of the ATP:

Exchange of good practices for better implementation of ATP

Proposed good practices

Note by the secretariat

1. The proposals presented below are not new ones, but the secretariat believes they could help in the better implementation of the ATP.
2. The Polish testing station in Cracow has proposed that a database of model ATP certificates issued by all ATP contracting parties be established on the WP.11 webpage. This would help in the identification of fake certificates.
3. The testing station in Cracow also publishes a list of all ATP certificates it issues on its website. If all testing stations issuing ATP certificates or competent authorities published such a list on their websites this would be easy to check for other competent authorities when there are doubts about the authenticity of an ATP certificate.
4. The ECE secretariat could also provide a link on its website to the lists of certificates published by testing stations issuing ATP certificates or competent authorities.
