Economic Commission for Europe
Inland Transport Committee
Working Party on the Transport of Dangerous Goods
Joint Meeting of the RID Committee of Experts and the Working Party on the Transport of Dangerous Goods
Bern, 14–18 March 2016
Item 5 (a) of the provisional agenda
Proposals for amendments to RID/ADR/ADN:
pending issues

Updating of references to European Union instruments (toxic substances; corrosive substances; substances hazardous to the aquatic environment)

Transmitted by the European Chemical Industry Council (CEFIC)

Summary

Executive summary: After the discussion in the plenary, CEFIC was asked to present an INF paper where the reference to the CLP regulation is made instead of the GHS. So this paper just shows the amended text, without any further explanation.

Action to be taken: Replace references in paragraphs 2.2.61.1.14, 2.2.8.1.9 and 2.2.9.1.10.5 b). Delete paragraph 2.2.9.1.10.5 a)

Proposals of amendments

2.2.61.1.14
Substances, solutions and mixtures, with the exception of substances and preparations used as pesticides, which do not meet the criteria of the CLP Regulation as amended and which are not therefore classified as category 1, 2 or 3 according to this regulation, as amended, may be considered as substances not belonging to class 6.1.

2.2.8.1.9
Substances, solutions and mixtures, which
- do not meet the criteria of the CLP Regulation as amended and therefore are not classified as corrosive according to this regulation, as amended; and
- do not exhibit a corrosive effect on steel or aluminium
may be considered as substances not belonging to Class 8.
NOTE: UN 1910 calciumoxide and UN No. 2812 sodium aluminate, listed in the UN Model Regulations, are not subject to the provisions of ADR/RID/ADN.

2.2.9.1.10.5

Substances or mixtures classified as environmentally hazardous substances (aquatic environment) on the basis of Regulation 1272/2008/EC1

If data for classification according to the criteria of 2.2.9.1.10.3 and 2.2.9.1.10.4 are not available a substance or mixture:

(a) [Shall be classified as an environmentally hazardous substance (aquatic environment) if it has to be assigned category(ies) Aquatic Acute 1, Aquatic Chronic 1 or Aquatic Chronic 2 according to Regulation 1272/2008/EC1;]

(b) May be regarded as not being an environmentally hazardous substance (aquatic environment) if it does not have to be assigned such a risk phrase or category according to the said Directives or Regulation.
