

OICA Comments to GRE/2017/17 and GRE/2017/22

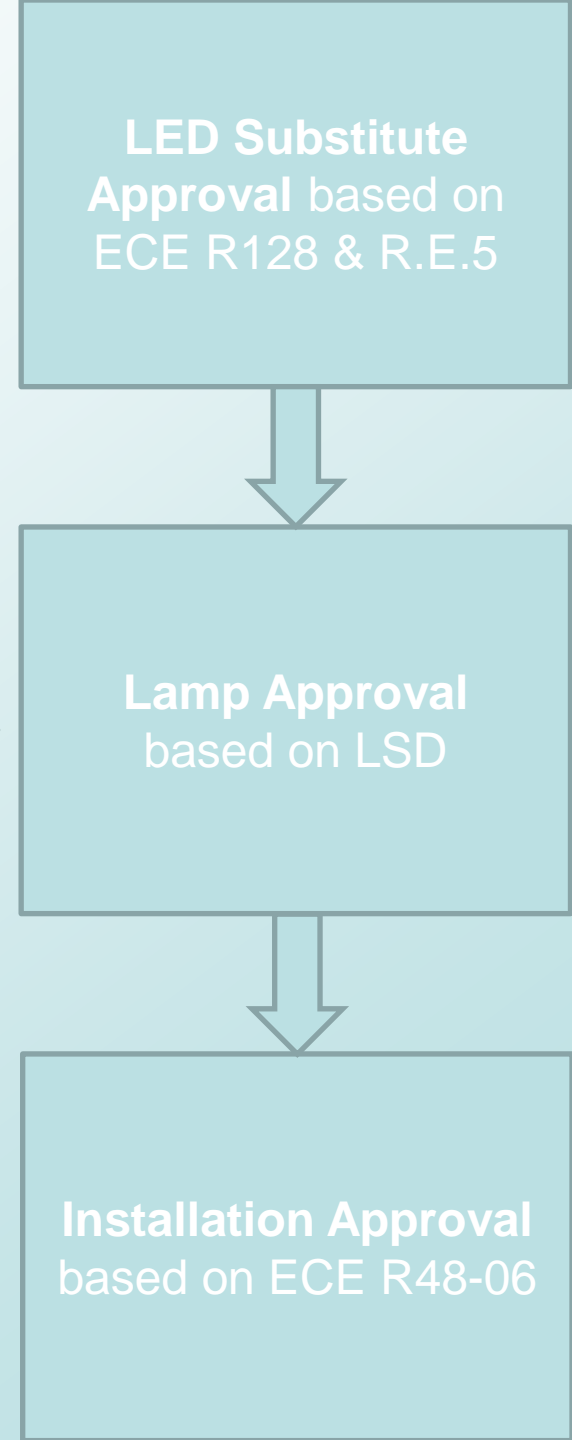

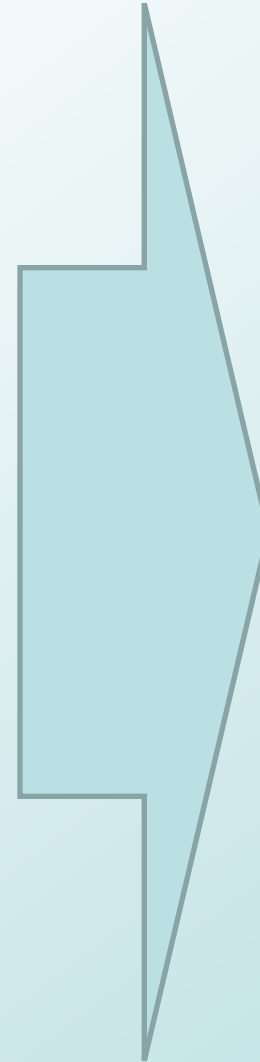

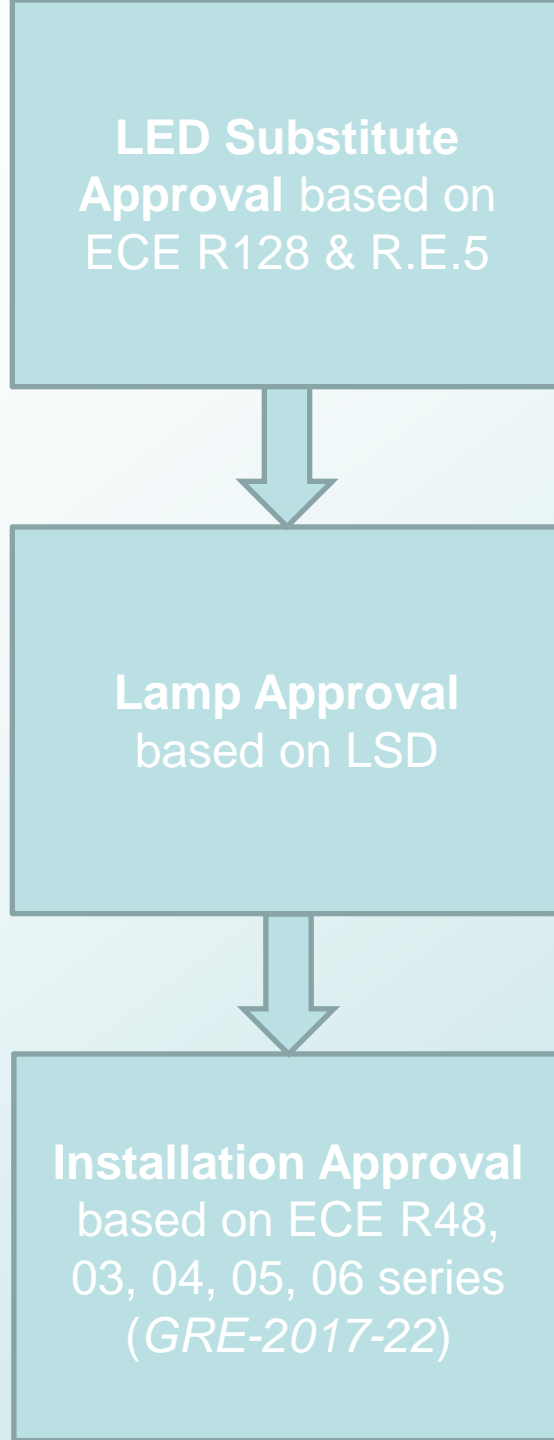

Theory

1st Example

LED Substitute
Approval based on
ECE R128 & R.E.5

LED Substitute
Approval based on
ECE R128 & R.E.5

2nd Example

Lamp Approval
based on LSD

**LSD is only introduced
for
ECE R48-04/05/06
(GRE/2017/11 /
GRE-78-14/GRE-78-15)**

Lamp Approval
based on LSD

Installation Approval
based on ECE R48,
03, 04, 05, 06 series
(GRE-2017-22)

~~Installation Approval
based on ECE R48-03~~

OICA Statement regarding GRE/2017/17 and GRE/2017/22

Where a vehicle manufacturer sees potential problems with installing LED substitutes on a previously approved UN R48/03 or 48/04 vehicle type an extension of the approval maybe necessary in order to prevent the vehicle manufacturer being held accountable for misuse.

That would be an unacceptable burden for the vehicle manufacturer !
