## I. Proposal

*Insert new paragraph 14.3.16., to read:*

**"14.3.16. For all Enhanced Child Restraint Systems that are required to provide a vehicle list, the manufacture is obligated to choose between presenting such a list or a digital version."**

## II. Justification

In a digital and paper less world, why not use a smartphone APP, QR code reader or any other digital device where consumer can check the latest version of the vehicle list. Using digital information can save a lot of paper.
