## **II. Annotations**

### **1. Adoption of the agenda**

In accordance with the Commission's Rules of Procedure, the Group of Experts is invited to adopt its agenda.

#### **Documentation**

ECE/TRANS/WP.5/GE.4/3

### **2. Transport Infrastructure Construction costs: Presentations of good practices at national levels for evaluating and calculating them**

The members of the Group will discuss models, methodologies, tools and good practices for evaluating, calculating and analyzing inland transport infrastructure construction costs that have been implemented at national and possibly at international levels.

The members of the Group are invited to present their experience in evaluating and calculating inland transport infrastructure construction costs and contribute to Group's mandate.

### **3. Transport Infrastructure Construction costs: Presentations of terminologies used**

The members of the Group should discuss terminologies used in the Economic Commission for Europe (ECE) region for construction costs of inland transport infrastructure prepared at National levels or in the framework of an International Organization. The main objective should be to analyse those terminologies and agree on a specific list with specific explanations in order to create a glossary of agreed terminologies and related explanations.

The members of the Group are invited to present terminologies prepared at their countries for inland transport infrastructure construction costs and contribute to Group's mandate.

### **4. Transport Infrastructure Construction Costs: Overview of main concerns and considerations**

The Group of Experts may wish to discuss issues and concerns on the Transport Infrastructure Construction Costs and their benchmarking requirements for different modes of inland transport (road, rail, inland water transport, intermodal transport, ports and their hinterland connections as well as intermodal hubs and logistics centers).

## **5. Discussions on the structure of the final report of the Expert Group**

The Group of Experts may wish to review the already discussed at its previous session structure of its final report, including recommendations and proposals to the UNECE members on benchmarking transport infrastructure constructions costs. The Group's Terms of Reference stipulates the submission of a full report of its accomplishments, including policy-oriented recommendations.

## **6. Other business**

The Group of Experts may wish to discuss other issues of interest.

## **7. Date and place of next meeting**

The Group of Experts may wish to note that its third meeting is tentatively scheduled to be held in Geneva on 10 and 11 July 2017.

## **8. Adoption of main decisions**

In accordance with established practice, the Chair will briefly summarize the decisions taken. Following the session, the Secretary, in cooperation with the Chair and Vice-Chair(s), will draft the final report.
