Benchmarking Transport Infrastructure Construction Costs

Status Report

September 2018
Scope of work
According to the ToR

• Identify models, methodologies, tools and good practices for evaluating, calculating and analysing inland transport infrastructure costs

• Identify and list terminologies used in UNECE region for construction costs of inland transport infrastructure and in possible create a glossary of agreed terminologies and related explanations

• Collect and analyse data in order to prepare a benchmarking of transport infrastructure costs along ECE region for road, rail, inland waterways, intermodal terminals, logistic centres and ports
Way of work

• Governments
  • Sub-groups
    • Roads
      • Leader: Turkey
    • Rails
      • Leader: Poland (PKP PLK)
  • IWW
    • Leader: ECE Working Party
  • Intermodal terminal/Logistics centers
    • Leader: Europlatforms EEIG and Turkey
• Ports
  • Leader: Poland (Port of Gdynia)

• Secretariat
• Islamic Bank of Development consultant
• Working Parties and groups of experts within UNECE
• International expert organizations
