Strengthening the national road safety management capacities of selected developing countries and countries with economies in transition

UNDA 9th Tranche Project
• The project aims to assist four countries to strengthen the road safety management capacities and effectively address and improve national road safety records.
• Beneficiary countries: Albania, Georgia, the Dominican Republic and Viet Nam
• Under implementation by UNECE (leading) in co-operation with ESAP and ECLAC
• Project activities are completed in March 2018
Road Safety Performance Reviews

• Describe current road safety situation and help Governments to identify the most critical road safety aspects and priority needs.
• National experts, UN Regional Commissions and international experts will analyze road safety situation, identify the most pressing road safety issues and come with recommendations.
• Based on priority needs identified in the Reviews, capacity-building seminars and workshops will be organized.
• Raise public awareness on road safety issues and sensitize public and non-governmental sectors on the need to set ambitious road safety targets and adopt specific measures to meet them.
